## We The People Of Europe Reflections Reflections On Transnational Citizenship:

We, the People of Europe? Étienne Balibar, 2009-01-10 Etienne Balibar has been one of Europe's most important philosophical and political thinkers since the 1960s. His work has been vastly influential on both sides of the Atlantic throughout the humanities and the social sciences. In *We the People of Europe* he expands on themes raised in his previous works to offer a trenchant and eloquently written analysis of transnational citizenship from the perspective of contemporary Europe. Balibar moves deftly from state theory, national sovereignty and debates on multiculturalism and European racism toward imagining a more democratic and less state-centered European citizenship. Although European unification has progressively divorced the concepts of citizenship and nationhood, this process has met with formidable obstacles. While Balibar seeks a deep understanding of this critical conjuncture, he goes beyond theoretical issues. For example, he examines the emergence alongside the formal aspects of European citizenship of a European apartheid or the reduplication of external borders in the form of internal borders nurtured by dubious notions of national and racial identity. He argues for the democratization of how immigrants and minorities in general are treated by the modern democratic state and the need to reinvent what it means to be a citizen in an increasingly multicultural, diversified world. A major new work by a renowned theorist, *We the People of Europe* offers a far-reaching alternative to the usual framing of multicultural debates in the United States while also engaging with these debates.

*We, the People of Europe?*, 2008 Etienne Balibar has been one of Europe's most important philosophical and political thinkers since the 1960s. His work has been vastly influential on both sides of the Atlantic throughout the humanities and the social sciences. In *We the People of Europe*

## **Eastern Europe Unmapped**

Irene Kacandes, Yuliya Komska, 2017-10-01 Arguably more than any other region, the area known as Eastern Europe has been defined by its location on the map. Yet its inhabitants, from statesmen to literati and from cultural economic elites to the poorest emigrants, have consistently forged or fathomed links to distant lands, populations and intellectual traditions. Through a series of inventive cultural and historical explorations, *Eastern Europe Unmapped* dispenses with scholars' long-time preoccupation with national and regional borders, instead raising provocative questions about the area's non-contiguous and frequently global or extraterritorial entanglements.

**Reexamining the National-Philological Legacy** Vladimir Biti, 2014-01-02 Has thinking, working and teaching in terms of national literatures become obsolete in today's globalized world of hyphenated languages, literatures and cultures? Since the rise of modern European national philologies coincided with the emergence of modern European nation states, does the dissolution of the latter in the European supranational unity imply the suspension of the former? Or we must on the contrary consider the fact that today's Europe is not only postnational but in its re-nationalized East Central European part post-multinational as well? i.e. emerging out of the breakdown of the post-imperial state formations such as the Soviet Union, Czechoslovakia and Yugoslavia?

*The Borders of "Europe"* Nicholas De Genova, 2017-08-26 In recent years, the borders of Europe have been perceived as being besieged by a staggering refugee

and migration crisis The contributors to The Borders of Europe see this crisis less as an incursion into Europe by external conflicts than as the result of migrants exercising their freedom of movement Addressing the new technologies and technical forms European states use to curb control and constrain what contributors to the volume call the autonomy of migration this book shows how the continent's amorphous borders present a premier site for the enactment and disputation of the very idea of Europe They also outline how from Istanbul to London Sweden to Mali and Tunisia to Latvia migrants are finding ways to subvert visa policies and asylum procedures while negotiating increasingly militarized and surveilled borders Situating the migration crisis within a global frame and attending to migrant and refugee supporters as well as those who stoke nativist fears this timely volume demonstrates how the enforcement of Europe's borders is an important element of the worldwide regulation of human mobility Contributors Ruben Andersson Nicholas De Genova Dace Dzenovska Evelina Gambino Glenda Garelli Charles Heller Clara Lecadet Souad Osseiran Lorenzo Pezzani Fiorenza Picozza Stephan Scheel Maurice Stierl Laia Soto Bermant Martina Tazzioli
