An Introduction to Web Mining Ulrich Matter, 2025-09-08 This book is devoted to the art and science of web mining showing how the world's largest information source can be turned into structured research ready data. Drawing on many years of teaching graduate courses on Web Mining and on numerous large scale research projects in web mining contexts the author provides clear explanations of key web technologies combined with hands on R tutorials that work in the real world and keep working as the web evolves. Through the book readers will learn how to scrape static and dynamic JavaScript heavy websites use web APIs for structured data extraction from web sources build fault tolerant crawlers and cloud based scraping pipelines navigate CAPTCHAs rate limits and authentication hurdles integrate AI driven tools to speed up every stage of the workflow apply ethical legal and scientific guidelines to their web mining activities. Part I explains why web data matters and leads the reader through a first hello scrape in R while introducing HTML HTTP and CSS. Part II explores how the modern web works and shows step by step how to move from scraping static pages to collecting data from APIs and JavaScript driven sites. Part III focuses on scaling up building reliable crawlers dealing with log ins and CAPTCHAs using cloud resources and adding AI helpers. Part IV looks at ethical legal and research standards offering checklists and case studies enabling the reader to make responsible choices. Together these parts give a clear path from small experiments to large scale projects. This valuable guide is written for a wide readership from graduate students taking their first steps in data science to seasoned researchers and analysts in economics social science business and public policy. It will be a lasting reference for anyone with an interest in extracting insight from the web whether working in academia industry or the public sector.

Blow Your Own Horn! Rae A. Stonehouse, 2020-03-17 There's an old saying that goes the squeaky wheel gets the grease. The saying may have been true at one point in time but now the business world is a busy and crowded place. How can a business professional standout from the cacophony of others clamoring for attention and recognition? Some will tell you it is easy now a days to create an on line reputation. The author believes creating your on line persona is important however it is but one step at a self promotional and marketing strategy. *Blow Your Own Horn Personal Branding for Business Professionals* delivers strategies to build your on line presence and gain recognition in your community. Your goal may be to raise your prominence at work to apply for a job you have been eying. Perhaps your goal is to run for political office but it seems no one knows who you are. This book is for business professionals who want to raise their visibility in a crowded workplace or a personal interest venture. Some will tell you blowing your own horn is bragging. The author argues against that belief. If we are to move forward and benefit from our accomplishments we need to self promote. *Blow Your Own Horn Personal Branding for Business Professionals* offers Strategies for personal branding and marketing. Self promotion utilizing LinkedIn as a tool. Effective networking techniques for self promotion. Self promotion strategies related to job searching.
