 tissue intelligence steadily declines and most of its activities are compromised in AD Before diving into the level of AD  
 diagnosis it is essential to highlight the fundamental differences between conventional machine learning ML and deep  
 learning DL This work covers a number of photo preprocessing approaches that aid in learning because image processing is  
 essential for the diagnosis of AD The most crucial kind of neural network for computer vision used in medical image  
 processing is called a Convolutional Neural Network CNN The proposed study will consider facial characteristics including
