**The Palgrave Handbook of Music and Sound in Peak TV** Janet K. Halfyard, Nicholas Reyland, 2024-12-17 The Palgrave Handbook of Music and Sound in Peak TV charts the transformation of television's sonic storytelling during the new golden age of televisual narrative from the late 1990s to the early 2020s. Grounded in close analytical, critical and theoretical work identifying the key traits of music and sound in this peak TV period, the book casts its critical net wider to develop interpretations of significance not just for screen music studies and musicology but for screen

and media studies too. By theorizing peakness with respect to sound and music and by drawing together contributions from a diverse collection of prominent musicologists, media scholars and practitioners, this handbook provides the authoritative guide to the role music has played in creating the success of some of the most culturally and commercially significant popular art of the early twenty first century. The volume contains 25 essays in three main sections: Concepts and Aesthetics, Practices and Production, and Audiences and Interpretations. Topics discussed include peakness, complexity, ostentatious scoring, antiheroes, memory, franchises, worldbuilding, nostalgia, maternity, trauma, actors' voices, title sequences, library music, branding, queer camp, scoring, kids' TV, captioning, industry practices, HBO and sound design. Shows examined include The Sopranos, The Wire, Game of Thrones, Battlestar Galactica, Westworld, Buffy the Vampire Slayer, Stranger Things, The Bridge, Dexter, Killing Eve, Mad Men, American Horror Story, Rings of Power, Fargo, Peaky Blinders, Call the Midwife, Twin Peaks, and Twin Peaks: The Return.

The contributors to this book examine the state development, issues, practices, and approaches to translation studies in the Philippines. Professor Moratto and Professor Bacolod and their contributors analyse the different roles that translation plays across an extensive range of areas, including disaster mitigation, crisis communication, gender bias, marginalization of Philippine languages, academe, and views on sex, gender, and sexuality. They look at a range of different types of translation from the translation of biblical texts to audio-visual translation and machine translation. Emphasising the importance of translation as an interdisciplinary field, they use a variety of analytic lenses, including anthropological, linguistics, language and culture studies, semantics, structural linguistics, and performance arts, among others. A comprehensive resource for scholars and practitioners of translation as well as a valuable reference for scholars across a wider range of humanities and social science disciplines in examining the culture, language, and society of the Philippines.
