EVE Online is a socially complex science fiction themed universe simulation and massively multiplayer online game MMOG first released in 2003. Notorious for its colossal battles and ruthless player culture, it has hundreds of thousands of players today. In this fascinating book, scholars, players, and EVE's developer CCP Games examine the intricate world of EVE Online, providing authentic accounts of lived experience within a game with more than a decade of history and millions of real dollars behind it. *Internet Spaceships Are Serious Business* features contributions from outstanding EVE Online players such as The Mittani, an infamous member of the game's community, as well as academics from around the globe. They cover a wide range of subjects: the game's technicalities and its difficulty; its projection of humanity's future in space; the configuration of its unique single-server game world; the global nature of warfare in its nullsec territory; and how EVE players have formed a global concept of time stereotypes of Russian players; espionage play in game; memorials to Vile Rat aka U.S. State Department official Sean Smith murdered in the 2012 Benghazi attack; its gendered playing experience; and CCP Games' relationship with players and its history and legacy. *Internet Spaceships Are Serious Business* is a must for EVE Online players interested in a broad perspective on their all-consuming game. It is also accessible to scholars, game designers seeking to understand and replicate the successful aspects unique to EVE Online, and even those who have never played this notoriously complex game.

*A commentary on the Gospel of st. Luke, with examination questions* William Trollope, 1848      **Day of Reckoning** Robert F. Berkhofer III, 2013-03-01. *Day of Reckoning: Power and Accountability in Medieval France* applies recent approaches to literacy, legal studies, memory, ritual, and the manorial economy to reexamine the transformation of medieval power. Highlighting the relationship of archives and power, it draws on the rich documentary sources of five of the largest Benedictine monasteries in northern France and Flanders, with comparisons to others over a period of nearly four centuries. The book opens up new perspectives on important problems of power, in particular the idea and practice of accountability. In a violent society, medieval lords tried to delegate power rather than share it to get their men to prosecute justice or raise

money legitimately rather than through extortion and pillage Robert F Berkhofer III explains how subordinates were held accountable by abbots administering the extensive holdings of Saint Bertin Saint Denis Saint Germain des Pr s Saint P re de Chartres and Saint Vaast d Arras As the abbots began to discipline their agents and monitor their conduct the day of reckoning took on new meaning as customary meeting days were used to hold agents accountable By 1200 written and unwritten techniques of rule developed in the monasteries had moved into the secular world in these practices lay the origins of administration bureaucratic power and governance all hallmarks of the modern state
