**Impossible Mission I & II - The Official Guide** Holger Weßling, 2020-11-25 The iconic Impossible Mission games by Epyx Inc enthralled a generation pitting the player's wits against the diabolic genius of the mad scientist Elvin Atombender in a race against time to save the world Now in this official guide to Impossible Mission I and II we get the chance to hear from some of the people who both created and brought the games to market such as Dennis Casswell Chris Crigg Peter Filiberti Mihaly Kenczler and many more This definitive work contains dozens of chapters from the history of Epyx the company the various versions and ports over the years the in game music the ground breaking synthesized speech to extensive hints tips and walkthroughs Written by established retro computer writer Holger Weßling and with a foreword by Darren Melbourne who has been associated with many of the games incarnations

Best Before James Newman, 2012-08-21 Despite record sales and an ever growing global industry the simple fact is that videogames are disappearing Most obviously the physical deterioration of discs cartridges consoles and controllers means that the data and devices will crumble to dust and eventually will be lost forever However there is more to the disappearance of videogames than plastic corrosion and bit rot Best Before examines how the videogames industry's retail publishing technology design advertising and marketing practices actively produce obsolescence wearing out and retiring old games to make way for the always new just out of reach coming soon title and next generation platform Set against the context of material deterioration and the discursive production of obsolescence Best Before examines the conceptual and practical challenges faced within the nascent field of game preservation Understanding videogames as rich complex and mutable texts and experiences that are supported and sustained by cultures of gameplay and fandom Best Before considers how and even whether we might preserve and present games for future generations
