## **Sound Mapping The New Testament:**

**Sound Matters** Margaret E. Lee, 2018-11-06 Sound matters The New Testament's first audiences were listeners not readers They heard its compositions read aloud and understood their messages as linear streams of sound To understand the New Testament's meaning in the way its earliest audiences did we must hear its audible features and understand its words as spoken sounds Sound Matters presents essays by ten scholars from five countries and three continents who explore the New Testament through sound mapping a technique invented by Margaret Lee and Bernard Scott for analyzing Greek texts as speech Sound Matters demonstrates the value and uses of this technique as a prelude and aid to interpretation The essays that make up this volume illustrate the wide range of interpretive possibilities that emerge when sound mapping restores the spoken sounds of the New Testament and revives its living voice

**Dramatic Encounters in the Bible** M. E. Andrew, 2013-07-31 This book began when the author realised that when people said they were fascinated by particular biblical passages they were usually ones that presented dramatic encounters between people and between God and people Such are the passages interpreted in this book They usually set a vivid scene that heightens the dramatic nature of the encounter and animated dialogue often directly addresses the reader There is also animated action that is vividly striking and often sudden and unexpected These features involve the readers themselves and may question them about what they expect Indeed the dramatic encounters provocatively lead to unexpected new life in the future

The Oxford Handbook of the Synoptic Gospels Stephen P. Ahearne-Kroll, 2023 The Oxford Handbook of the Synoptic Gospels presents essays that push the field beyond the Synoptic Problem and theological themes that ignore the particularities of each Gospel The first section explores some of the traditional approaches of literary dependence and engages with alternative ways to understand Synoptic relations while the second section treats a variety of historical literary and cultural phenomena important to the study of these Gospels

*The Dictionary of the Bible and Ancient Media* Tom Thatcher, Chris Keith, Raymond F. Person, Jr., Elsie R. Stern, 2017-10-19 The Dictionary of the Bible and Ancient Media is a convenient and authoritative reference tool introducing specific terms and concepts helpful to the study of the Bible and related literature in ancient communications culture Since the early 1980s biblical scholars have begun to explore the potentials of interdisciplinary theories of oral tradition oral performance personal and collective memory ancient literacy and scribality

visual culture and ritual Over time these theories have been combined with considerations of critical and exegetical problems in the study of the Bible the history of Israel Christian origins and rabbinics The Dictionary of the Bible and Ancient Media responds to the rapid growth of the field by providing a source of reference that offers clear definitions and in depth discussions of relevant terms and concepts and the relationships between them The volume begins with an overview of ancient media studies and a brief history of research to orient the reader to the field and the broader research context of the book with individual entries on terms and topics commonly encountered in studies of the Bible in ancient media culture Each entry defines the term concept under consideration then offers more sustained discussion of the topic paying particular attention to its relevance for the study of the Bible and related literature

### **Colometric Analysis of Paul's Letters**

Priscille Marschall,2024-03-13 Priscille Marschall explores some stylistic aspects of Paul's letters in particular their oral oriented logic of structuration employing Chapters 10-13 of Second Corinthians as a case study The method of analysis draws upon the rhetorical treatises of the Greco-Roman world

### **First-Century Gospel Storytellers and Audiences**

Thomas E. Boomershine,2022-07-29 These essays explore the reconception of the Gospels as first-century compositions of sound performed for audiences by storytellers rather than the anachronistic picture of a series of texts read by individual readers The new paradigm implicit in these initial experiments is based on the recent realization that the majority of persons 85 to 95 percent were illiterate and experienced the Jesus stories as members of audiences Either from memory or from memorized manuscripts the evangelists performed the Gospels as an evening's entertainment of two to four hours The audiences were predominantly addressed as Hellenistic Judeans who lived in the aftermath of the Roman Jewish war When heard whole the Gospels were vivid experiences of the central character of Jesus These studies of audience address and the interactions between first-century storytellers and audiences reveal a dynamic performance literature that functioned as scripts for an ever-expanding network of storytelling proclamations whose envisioned horizon was the whole world When the Gospels were told at one time from beginning to end they invited the listeners to move from being peripherally interested or initially opposed to Jesus to identifying themselves as disciples of Jesus and believers in him as the Messiah
