**South America Executive** National Geographic Maps,2016-01-08 From the Isthmus of Panama to the southern reaches of Cape Horn National Geographic's wall map of South America combines beauty with function. The antique style Executive map uses a rich color palette and stunning shaded relief that fits with any decor. Political boundaries are clearly defined and place names, airports, major roadways and other geographical features are easy to read. Ocean features and currents as well as depth curves and soundings add context to the continent's extensive coastline and the diverse human populations that inhabit those shores. Coverage includes the countries and major cities of Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Guyana, Paraguay, Peru, Suriname, Uruguay and Venezuela. The map is encapsulated in heavy duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass so the frames can be much lighter and less expensive. Map Scale 1:11,121,000. Sheet Size 23.5 x 30.25. Reference, 2016-01-08 National Geographic's World map is the standard by which all other reference maps are measured. The World map is meticulously researched and adheres to National Geographic's convention of making independent apolitical decisions based on extensive research using multiple authoritative sources. The Executive style World map uses an antique style color palette and stunning shaded relief that provide a richness perfect for any decor. Drawn in the Winkel Tripel projection, distortions are minimized and unlike many other World maps, Greenland is shown the same size as Argentina and not as the size of all of South America. Thousands of place names are carefully and artistically placed on the map to maintain legibility even in the heavily populated areas of Europe, Asia and the Middle East. Details include clearly defined international boundaries, cities, physical features, rivers and ocean floor features. Corner inset maps feature vegetation and land use and population density as well as the north and south polar regions. Enlarged maps provide an immersive experience in any home or office environment. The exceptional cartography is even easier to appreciate at the larger size. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale 1:18,366,000. Sheet Size 73 x 48. [South America Classic](#) National Geographic Maps, 2013-06-09 This classic map of South America shows political boundaries, place names, airports, major roads and highways and other geographic features for the entire continent.
