C. van Caenegem, François Louis Ganshof, 1978      A Source Book for Mediaeval History : Selected Documents illustrating the History of Europe in the Middle Age Oliver J. Thatcher, Edgar Holmes McNeal, 1905 A Source Book for Mediaeval History Selected Documents illustrating the History of Europe in the Middle Age It will be observed that we have made use chiefly of documents quoting from chronicles only when it seemed absolutely necessary An exception to this general principle is found in section I where a larger use of chronicles was rendered necessary by the lack of documentary sources for much of the period covered but it is perhaps unnecessary to apologize for presenting selections from the important histories of Tacitus Gregory Einhard and Widukind In the matter of form translation omissions arrangements notes etc we were guided by considerations of the purpose of the book The style of most of the documents in the original is involved obscure bombastic and repetitious A faithful rendition into English would often be quite unintelligible We have endeavored to make a clear and readable translation but always to give the correct meaning If we have failed in the latter it is not for want of constant effort We have not hesitated to omit phrases and clauses often of a parenthetical nature the presence of which in the translation would only render the passage obscure and obstruct the thought As a rule we have given the full text of the body of the document but we have generally omitted the first and last paragraphs the former containing usually titles and pious generalities and the latter being composed of lists of witnesses etc We have given a sufficient number of the documents in full to illustrate these features of medi val diplomatics All but the most trivial omissions in the text which are matters rather of form of translation are indicated thus Insertions in the text to explain the meaning of phrases are inclosed in brackets Quotations from the Bible are regularly given in the words of the Authorized Version but where the Latin taken from the Vulgate differs in any essential manner we have sometimes translated

the passage literally Within each section the documents are arranged in chronological order except in a few cases where the topical arrangement seemed necessary We believe that the explanatory notes in the form of introductions and foot notes will be found of service they are by no means exhaustive but are intended to explain the setting and importance of the document and the difficult or obscure passages it may contain The reference to the work or the collection in which the original is found is given after the title of practically every document the meaning of the references will be plain from the accompanying bibliography The original of nearly all the documents is in Latin some few are in Greek Old French or German and in such cases the language of the original is indicated It is impossible of course to give explicit directions as to the use of the book other than the very obvious methods of requiring the student to read and analyze the documents assigned in connection with the lesson in the text book and of making clear to him the relation of the document to the event It may be possible also for the teacher to give the student some notion of the meaning of historical method e g the necessity of making allowance for the ignorance or the bias of the author in chronicles or the way in which a knowledge of institutions is deduced from incidental references in documents Suggestions of both sorts will be found in the introduction and notes The teacher should insist on the use of such helps as are found in the book notes cross references glossary etc Groups of documents can be used to advantage in topical work assigned topics worked up from authorities can be illustrated by documents selected from the book e g imperial elections papal elections the Normans in Sicily history of the Austrian dominions Germans and Slavs on the eastern frontier relations of the emperors and the popes before the investiture strife etc

Heresy, Magic and Witchcraft in Early Modern Europe Gary K Waite, 2019-10-10 In the fifteenth century many authorities did not believe Inquisitors stories of a supposed Satanic witch sect However the religious conflict of the sixteenth century Reformation especially popular movements of reform and revolt helped to create an atmosphere in which diabolical conspiracies which swept up religious dissidents Jews and magicians into their nets were believed to pose a very real threat Fear of the Devil and his followers inspired horrific incidents of judicially approved terror in early modern Europe leading after 1560 to the infamous witch hunts Bringing together the fields of Reformation and witchcraft studies this fascinating book reveals how the early modern period s religious conflicts led to widespread confusion and uncertainty Gary

K Waite examines in depth how church leaders dispelled rising religious doubt by persecuting heretics and how alleged infernal plots and witches who confessed to making a pact with the Devil helped the authorities to reaffirm orthodoxy Waite argues that it was only when the authorities came to terms with pluralism that there was a corresponding decline in witch panics
