 Worker Health and Safety on Offshore Wind Farms examines the hazards and risks to workers on offshore wind farms on the
 outer continental shelf as compared with the hazards and risks to workers on offshore oil and gas operations The report
 explores gaps and overlaps in jurisdictional authority for worker health and safety on offshore wind farms and evaluates the
 adequacy of and recommends enhancements to the existing safety management system SMS requirement published in 30
 CFR 585 810 The study committee recommends that the U S Department of the Interior s Bureau of Ocean Energy
 Management BOEM adopt a full SMS rule for workers on offshore wind farms at a level of detail that includes the baseline
 elements identified in this report An enhanced SMS rule should require the use of human factors engineering elements in the

design process and should encompass all activities that the lessee and its contractors undertake In collaboration with other regulatory agencies and industry stakeholders BOEM should clearly define roles and responsibilities and indicate which standards could apply for all phases of wind farm development regardless of jurisdiction Also with the help of stakeholders BOEM should support the development of guidelines and recommended practices that could be used as guidance documents or adopted by referen
