architectures This book acknowledges architecture far beyond the familiar boundaries of the discipline and reassesses the object at its centre the building Architectural matter is not always physical or building fabric It is whatever architecture is made of whether words bricks blood cells sounds or pixels The fifteen chapters are divided into three sections on buildings spaces and bodies which each deal with a particular understanding of architecture and architectural matter The richness and diversity of subjects and materials discussed in this book locates architecture firmly in the world as a whole not just the domain of architects In stating that architecture is far more than the work of architects this book aims not to deny the importance of architects in the production of architecture but to see their role in more balanced terms and to acknowledge other architectural producers Architecture can for example be found in the incisions of a surgeon the instructions of a choreographer or the movements of a user Architecture can be made of anything and by anyone

Return Michael Turner/ Luiz Santos,2025-03-23 When the Dragons Return An Esoteric Guide for the New Age Dragons were
never just myths or fantasies They are primordial forces vibrational consciousnesses that shape the invisible web of existence
and guard secrets long forgotten by humanity Present in cultures across all times and places these elemental entities have
always been symbols of power balance and transformation But what happened to them Why did they withdraw from our
plane And more importantly why do we now feel their presence returning This work reveals that dragons never left They
simply waited In hidden dimensions they continue to watch over the Earth s cycles awaiting the right moment to reconnect
with those awakening to their true essence Their call resonates in those who seek ancestral wisdom who yearn for a greater
purpose and who feel the urgent need to restore harmony between spirit and matter By unveiling the dragons connection
with the four elements their energetic manifestations and their impact on the spiritual journey this book offers a path to
understand and access their presence The awakening of draconic energy is an invitation to transformation a return to what
has always been within us The question is not whether they will return but rather are you ready to hear them **Antoine**
