The Medieval World View An Introduction:

The Medieval World View William R. Cook, Ronald B. Herzman, 1983 Authorship, Worldview, and Identity in Medieval Europe Christian Raffensperger, 2022-03-03 What did medieval authors know about their world Were they parochial and focused on just their monastery town or kingdom Or were they aware of the broader medieval Europe that modern historians write about This collection brings the focus back to medieval authors to see how they described their world While we see that each author certainly had their own biases the vast majority of them did not view the world as constrained to their small piece of it Instead they talked about the wider world and often they had informants or textual sources that informed them about the world even if they did not visit it themselves This volume shows that they also used similar ideas to create space and identity whether talking about the desert the holy land or food practices in their texts By examining medieval authors and their own perceptions of their world this collection offers a framework for discussions of medieval Europe in the twenty first century **The Routledge Handbook of East Central and Eastern Europe in the Middle Ages, 500-1300** Florin Curta, 2021-11-29 The Routledge Handbook of East Central and Eastern Europe in the Middle Ages 500 1300 is the first of its kind to provide a point of reference for the history of the whole of Eastern Europe during the Middle Ages While historians have recognized the importance of integrating the eastern part of the European continent into surveys of the Middle Ages few have actually paid attention to the region its specific features problems of chronology and historiography This vast region represents more than two thirds of the European continent but its history in general and its medieval history in particular is poorly known This book covers the history of the whole region from the Balkans to the Carpathian Basin and the Bohemian Forest to the Finnish Bay It provides an overview of the current state of research and a route map for navigating an abundant historiography available in more than ten different languages Chapters cover topics as diverse as religion architecture art state formation migration law trade and the experiences of women and children This book is an essential reference for scholars and students of medieval history as well as those interested in the history of Central and Eastern Europe **The Rise of Western Power** Jonathan Daly, 2013-12-19 The West s history is one of extraordinary success no other region empire culture or civilization has left so powerful a mark upon the world The Rise of Western Power charts the West s achievements representative government the free enterprise system modern science and the rule of law as well as its misdeeds two frighteningly destructive World Wars the Holocaust imperialistic domination and the Atlantic slave trade Adopting a global perspective Jonathan Daly explores the contributions of other cultures and civilizations to the West s emergence Historical geographical and cultural factors all unfold in the narrative Adopting a thematic structure the book traces the rise of Western power through a series of revolutions social political technological military commercial and industrial among others The result is a clear and engaging introduction to the history of Western civilization *A Cultural History of the Modern Age: Introduction. book 1. Renaissance and reformation; from the black death to the thirty years' war* Egon Friedell, 1930 **An**

Introduction to the Study of Society Frank Hamilton Hankins, 1928 **An introduction to sociology; a behavioristic study of American** Jerome Davis, 1927 *An Introduction to Sociology* Jerome Davis, Harry Elmer Barnes, 1927

Peacemaking in Medieval Europe Udo Heyn, 1997 Summarizes a number of essays published or delivered during the 1980s and 1990s investigating the reasons for conflict in the Middle Ages and the mechanisms by which it was contained The purpose is to elucidate approaches that could be of use in the modern world Among the topics are peace campaigns of the church and the state the movement from private justice to public law and from private combat to rules of war alternatives to the peace campaigns and the pacification of Europe Over 100 pages are devoted to annotated bibliographic material of interest both to medievalists and peace scholars Paper edition unseen 13 95 Annotation copyrighted by Book News Inc Portland OR *Readings in World History: Medieval Europe, edited by W. H. McNeill and S. Houser* William Hardy McNeill, Jean W. Sedlar, 1968 *The Medieval Icelandic Saga and Oral Tradition* Gísli Sigurðsson, 2004 This work explores the role of orality in shaping and evaluating medieval Icelandic literature Applying field studies of oral cultures in modern times to this distinguished medieval literature Gísli Sigurðsson asks how it would alter our reading of medieval Icelandic sagas if it were assumed they had grown out of a tradition of oral storytelling similar to that observed in living cultures Sigurðsson examines how orally trained lawspeakers regarded the emergent written culture especially in light of the fact that the writing down of the law in the early twelfth century undermined their social status Part II considers characters genealogies and events common to several sagas from the east of Iceland between which a written link cannot be established Part III explores the immanent or mental map provided to the listening audience of the location of Vinland by the sagas about the Vinland voyages Finally this volume focuses on how accepted foundations for research on medieval texts are affected if an underlying oral tradition of the kind we know from the modern field work is assumed as part of their cultural background This point is emphasized through the examination of parallel passages from two sagas and from mythological overlays in an otherwise secular text **Approaches to Teaching Chaucer's Troilus and Criseyde and the Shorter Poems** Tison Pugh, Angela Jane Weisl, 2007 This Approaches to Teaching volume aims to provide students with a vision of Chaucer that highlights the great variety breadth and depth of his entire body of work Although Chaucerians recognize that Troilus and Criseyde and the shorter poems are as entertaining and complex as the more familiar Canterbury Tales teachers of medieval English do not readily include these texts in their courses The materials collected here offer instructors ideas and strategies for making Chaucer's lesser taught works as memorable and engrossing for students as any of the narrative gems in Canterbury Tales Part 1 Materials discusses available teaching resources focusing not only on the many editions of Chaucer's works in Middle English but also on translations for teachers whose students turn to modern English as a study aid The essays in part 2 Approaches begin by exploring the poetry's backgrounds including sources and genre the growth of the English vernacular as a literary language Chaucer's conception of history in its Christian classical and English political

senses the role of manuscript study in illuminating the historical record and Chaucer's representation of gender The section on teaching the poems features essays that offer suggestions for overcoming students' difficulties with Middle English consider the relation between Chaucer and his readers assess various theoretical models and show how a wide range of visual imagery can be used in the classroom A final section on course contexts includes essays on teaching these poems for the first time as well as designing classes for nonmajors and graduate students The volume concludes with an appendix on reading Chaucer aloud with students **Topics in Medieval Art : Gender And/in Medieval Art** Pamela Sheingorn,1990

The Humanities: Cultural Roots and Continuities Charlotte V. Brown,Mary A. Witt,Roberta A. Dunbar,Frank Tirro,Ronald G. Witt,John Cell,1997-02 **The Humanities** Ronald G. Witt,2001 **Music in Medieval Europe** Jeremy Yudkin,1989 Historical survey of music in medieval Europe from the end of Antiquity to the beginning of the fifteenth century Historical survey of music in medieval Europe from the the end of Antiquity to the beginning of the fifteenth century from plainchant to late medieval polyphonic song Clearly presented and explained **History** Albert Frederick Pollard,Harold Felix Baker Wheeler,1929 **American Book Publishing Record** ,2006 The Humanistic Tradition Gloria K. Fiero,2006 The Humanistic Traditionis quite simply the finest book of its type Fiero manages to integrate the political cultural and social history of the world into one coherent and fascinating whole It is a masterpiece of scholarship balanced interesting easy to read and consummately beautiful Our professors praise its accuracy and scope and our students unanimously say it is their favorite textbook Sonia Sorrell Pepperdine University The Humanistic Traditionfeatures a flexible topical approach that helps students understand humankind's creative legacy as a continuum rather than as a series of isolated events This widely acclaimed interdisciplinary survey offers a global perspective countless illustrations and more than 150 literary sources Available in multiple formats The Humanistic Traditionexplores the political economic and social contexts of human culture providing a global and multicultural perspective which helps students better understand the relationship between the West and other world cultures **Archaeological Review from Cambridge** ,2009
