User Manual Ps3:

User's Manual for "PLANT-PC" Bijan Payandeh, Canada-Ontario Forest Resource Development Agreement, 1992 The simulation model PLANT PC was developed to aid forest managers in Ontario with their forest renewal problems. The model treats the regeneration process as three separate but interdependent phases of stock production, stock storage and plantation establishment. During each phase growth and/or survival of seedlings are simulated according to empirical submodels reflecting the effects of various biological factors as well as management options. The model was calibrated for black spruce, white spruce and jack pine plantations from the Nipigon, Geraldton, Hearst, Kapuskasing, Timmins and Wawa districts of Ontario. Application of the model is demonstrated by presenting a detailed example. A simple procedure for calibrating the model to account for local or regional conditions is also provided.

5 Things Every Parent Needs to Know about Their Kids and Sex Anne Marie Miller, 2016-05-17 Real Help for the Toughest Talks. Most parents dread talking about sex with their children. Anne Marie Miller loves giving the talk. As she has shared her personal story and talked about God's gift of sex with almost half a million young people, she's noticed some disturbing patterns. Google is how kids learn about sex. Kids are learning about sex and viewing pornography earlier than parents think. The sexually abused often don't tell anyone for fear of getting in trouble. Sexual messages are being consumed daily through mainstream and social media. Most parents think their child is the exception. Instead of sweeping this topic under the rug, Miller wants to change the narrative. In this immensely practical and well-researched book, she equips parents to have meaningful and age-appropriate conversations with their children about sex, pornography, and sexual abuse. She advises parents on how to keep the lines of communication open so that their children know they can trust them with their fears, struggles, and mistakes. Most important, she offers hope to worried parents that
