Confessions of a Call Center Gal: a Novel Lisa Lim, 2011-05 Bridget Jones's Diary meets The Office Madison Lee is a fresh college grad ready to take on the world of print media But she has zero luck landing a job Unemployment is at ten percent and on the rise Desperate and left with no other

options she accepts a position as a service rep at a call center in Pocatello Idaho At the Lightning Speed call center in Spudsville Maddy plunges into the wild and dysfunctional world of customer service where Sales is prided over Service and an eight hour shift is equivalent to eight hours of callers bashing her over the phone Oh sure the calls are bad But Maddy manages to find humor on the phone and off the phone And with all the salacious drama behind the calls there is never a dull moment at the Lightning Speed call center Lately Maddy has been pining for her smolderingly gorgeous co worker Mika Harket Now things are heating up on the phone and elsewhere Don t hang up on this novel Working at a call center has never been this garish or this delightful DISCLAIMER If you find politically incorrect shows like The Office South Park and Chelsea Lately detestable juvenile and offensive then this book is probably NOT for you

How It Predicts Amazon Best Sellers? Akbas,2018-10-03 Abstract A book s success popularity depends on various parameters extrinsic and intrinsic In this paper we study how the book reading characteristics might influence the popularity of a book Towards this objective we perform a cross platform study of Goodreads entities and attempt to establish the connection between various Goodreads entities and the popular books Amazon best sellers We analyse the collective reading behaviour on Goodreads platform and quantify various characteristic features of the Goodreads entities to identify differences between these Amazon best sellers ABS and the other non best selling books We then develop a prediction model using the characteristic features to predict if a book shall become a best seller after one month 15 days since its publication On a balanced set we are able to achieve a very high average accuracy of 88 72% 85 66% for the prediction where the other competitive class contains books which are randomly selected from the Goodreads dataset Our method primarily based on features derived from user posts and genre related characteristic properties achieves an improvement of 16 4% over the traditional popularity factors ratings reviews based baseline methods We also evaluate our model with two more competitive set of books a that are both highly rated and have received a large number of reviews but are not best sellers HRHR and b Goodreads Choice Awards Nominated books which are non best sellers GCAN We are able to achieve quite good results with very high average accuracy of 87 1% and as well a high ROC for ABS vs GCAN For ABS vs HRHR our model yields a high average accuracy of 86 22%
