Ai Overview Today:

AI and Learning Systems Konstantinos Kyprianidis, Erik Dahlquist, 2021-02-17 Over the last few years interest in the industrial applications of AI and learning systems has surged. This book covers the recent developments and provides a broad perspective of the key challenges that characterize the field of Industry 4.0 with a focus on applications of AI. The target audience for this book includes engineers involved in automation system design, operational planning and decision support. Computer science practitioners and industrial automation platform developers will also benefit from the timely and accurate information provided in this work. The book is organized into two main sections comprising 12 chapters overall: Digital Platforms and Learning Systems.

Industrial Applications of AI *Artificial Intelligence in Accounting* Cory Ng, John Alarcon, 2020-12-08 *Artificial Intelligence in Accounting Practical Applications* was written with a simple goal to provide accountants with a foundational understanding of AI and its many business and accounting applications. It is meant to serve as a guide for identifying opportunities to implement AI initiatives to increase productivity and profitability. This book will help you answer questions about what AI is and how it is used in the accounting profession today. Offering practical guidance that you can leverage for your organization, this book provides an overview of essential AI concepts and technologies that accountants should know such as machine learning, deep learning and natural language processing. It also describes accounting specific applications of robotic process automation and text mining. Illustrated with case studies and interviews with representatives from global professional services firms, this concise volume makes a significant contribution to examining the intersection of AI and the accounting profession. This innovative book also explores the challenges and ethical considerations of AI. It will be of great interest to accounting practitioners, researchers, educators and students.
