George Ciccarello-Maher's 'We Created Chávez: A People's History of the Venezuelan Revolution' is an impressive work that locates the Bolivarian Revolution, not directly in the figure of Hugo Chávez, but rather in Venezuela's diverse and vibrant social movements, whose activities made Chávez's rise to power possible. The book is loyal to its subtitle in terms of content and method. Ciccarello-Maher situates himself not as a neutral outside observer mining Venezuelan social movements for data to prove or disprove a particular theoretical paradigm, but rather as someone who speaks to those about whom he writes and who finds in these conversations important theoretical reflections on the relationship between state and society in Venezuela and revolutionary struggles.

The book begins *on the ground* with a meeting of the author in a Caracas barrio with the historic leader of the revolutionary collective La Piedrita, which, like many of Venezuela's collectives, has a history reaching back before Chávez's election and which 'began as a spontaneous community response to the scourge of narcotics trafficking, as young revolutionaries – imbued with the history and ideology of struggles past – confronted both the drug trade and the violently corrupt state that facilitated it' (p. 3). It is from this encounter that Ciccarello-Maher draws the paradox driving the rest of the book. How is it, he asks, 'that the vast majority of such militants [from collectives like La Piedrita] – those who deeply despise corruption, bureaucracy, and even the state itself and are more likely to associate the state with torture, murder, and "disappearance" – are still Chávistas, at least for the time being' (p. 5). Without these militant groups, he argues, Chávez would not have arrived at nor remained in power. Their key role is lost to those accounts on both right and left that fetishize either state power (that is, it's all Chávez) or conversely anti-state power and horizontalism (that is, the only true revolutionary movements are those that oppose the state or have no interest in state power). To write a people's history of the Venezuelan Revolution, insists Ciccarello-Maher, one must instead see how the 'multiplicity of revolutionary social movements' to which the initial post-1958 guerrilla struggle gave way lent their support and loyalty

We Created Chvez A Peoples History Of The Venezuelan Revolution:

We Created Chávez Geo Maher, 2013-04-17 Since being elected president in 1998 Hugo Chávez has become the face of contemporary Venezuela and more broadly anticapitalist revolution. George Ciccarello Maher contends that this focus on Chávez has obscured the inner dynamics and historical development of the country's Bolivarian Revolution. In *We Created Chávez* by examining social movements and revolutionary groups active before and during the Chávez era Ciccarello Maher provides a broader more nuanced account of Chávez's rise to power and the years of activism that preceded it. Based on interviews with grassroots organizers former guerrillas members of neighborhood militias and government officials Ciccarello Maher presents a new history of Venezuelan political activism one told from below. Led by leftist guerrillas women Afro Venezuelans indigenous people and students the social movements he discusses have been struggling against corruption and repression since 1958. Ciccarello Maher pays particular attention to the dynamic interplay between the Chávez government revolutionary social movements and the Venezuelan people recasting the Bolivarian Revolution as a long term and multifaceted process of political transformation

We, the Mediated People Joshua Braver, 2023 Introduction The lawless unity of the people the legalists and radicals consensus Extraordinary adaptation an illegal and plural people The enemies clash lawless constitution making in Venezuela and Ecuador The lover's quarrel partially inclusive extraordinary adaptation in Colombia The enemies truce inclusive extraordinary adaptation in Bolivia Conclusion *Only the People Can Save the People* Donald V. Kingsbury, 2018-04-25 Examines the egalitarian creative and inclusive practice of radical democracy in contemporary Venezuela. In a global historical moment of growing mobilizations against inequality corruption and exclusion *Only the People Can Save the People* illustrates the necessity and challenges of more egalitarian approaches to collective life from one of the most tumultuous and compelling experiments in radical democracy. Donald V Kingsbury examines twenty first century Venezuelan politics from the perspective of constituent power the egalitarian creative and inclusive practice of radical democracy. In the aftermath of neoliberal structural adjustment Venezuelan politics have been increasingly reconfigured according to principles of autogestión self management social movement autonomy protagonistic and participatory democracy and anti capitalism. However inherited and intensifying challenges arising from Venezuela's status as a petrostate the class and racial divisions that define its society and the difficulties of defining what Hugo Chávez termed socialism for the twenty first century have resulted in a tumultuous process of social change. Informed by ethnography contemporary and comparative political thought and global political economy *Only the People Can Save the People* demonstrates how constituent power is shaping collective identity political conflict and infrastructural space in contemporary Latin America. Bad News from Venezuela Alan Macleod,2018-04-17

Since the election of President Hugo Chavez in 1998 Venezuela has become an important news item Western coverage is shaped by the cultural milieu of its journalists with news written from New York or London by non specialists or by those staying inside wealthy guarded enclaves in an intensely segregated Caracas Journalists mainly work with English speaking elites and have little contact with the poor majority Therefore they reproduce ideas largely attuned to a Western neoliberal understanding of Venezuela Through extensive analysis of media coverage from Chavez s election to the present day as well as detailed interviews with journalists and academics covering the country Bad News from Venezuela highlights the factors contributing to reportage in Venezuela and why those factors exist in the first place From this examination of a single Latin American country the book furthers the discussion of contemporary media in the West and how with the rise of fake news their operations have a significant impact on the wider representation of global affairs Bad News from Venezuela is comprehensive and enlightening for undergraduate students and research academics in media and Latin American studies

Race, Power, and the Obama Legacy Pierre Orelus,2015-09-25

This book critically examines Obama s presidency and legacy especially in regard to race inequality education and political power Orelus depicts an interest convergence factor that led many White liberals and the corporate media to help Obama get elected in 2008 and 2012 He assesses Obama s political accomplishments including parts of his domestic policies that support gay rights and equal pay for women Special attention is given to Obama s educational policies like Race to the Top and the effects of such policies on both the learning and academic outcome of students particularly linguistically and culturally diverse students In a race and power framework Orelus relates domestic policies to the effects of Obama s foreign policies on the lives of people in poorer countries especially where innocent children and women have been killed by war and drone strikes authorized by Obama s administration The

author invites readers to question and transcend the historical symbolism of Obama's political victory in an effort to carefully examine and critique his actions as reflected through both his domestic and foreign policies *Canada In The World* Tyler A. Shipley,2020-07-25T00:00:00Z An accessible and empirically rich introduction to Canada's engagements in the world since confederation this book charts a unique path by locating Canada's colonial foundations at the heart of the analysis Canada in the World begins by arguing that the colonial relations with Indigenous peoples represent the first example of foreign policy and demonstrates how these relations became a foundational and existential element of the new state Colonialism the project to establish settler capitalism in North America and the ideological assumption that Europeans were more advanced and thus deserved to conquer the Indigenous people says Shipley lives at the very heart of Canada Through a close examination of Canadian foreign policy from crushing an Indigenous rebellion in El Salvador peacekeeping missions in the Congo and Somalia and Cold War interventions in Vietnam and Indonesia to Canadian participation in the War on Terror Canada in the World finds that this colonial heart has dictated Canada's actions in the world since the beginning Highlighting the continuities across more than 150 years of history Shipley demonstrates that Canadian policy and behaviour in the world is deep rooted and argues that changing this requires rethinking the fundamental nature of Canada itself *Understanding the Venezuelan Revolution* Hugo Chávez Frías,Marta Harnecker,2005-11 This work brings together in an extended dialogue the ongoing transformation of Venezuelan society and its growing role in global and regional politics In the course of this discussion Chavez sets out his politics in his own words enabling the reader to grasp the rationale behind them and the charisma of the man **Building the Commune** Geo Maher,2016-11-01 Latin America's experiments in direct democracy Since 2011 a wave of popular uprisings has swept the globe taking shape in the Occupy movement the Arab Spring 15M in Spain and the anti austerity protests in Greece The demands have been varied but have expressed a consistent commitment to the ideals of radical democracy Similar experiments began appearing across Latin America twenty five years ago just as the left fell into decline in Europe In Venezuela poor barrio residents arose in a mass rebellion against neoliberalism ushering in a government that institutionalized the communes already forming organically In Building the Commune George Ciccarello Maher travels through these radical experiments speaking to a broad range of community members workers students and government officials Assessing the projects successes and failures Building the Commune provides lessons and inspiration for the radical movements of today *Indonesia bergerak 2* Agus Pramusinto,Yuyun Purbokusumo,2016 On public policy in Indonesia in facing social conditions in Indonesia during 2016 result of discussions *Socialist Viewpoint* ,2007 *Democracy and Revolution* D. Negri Instead it is to be found in broad popular movements with bold leadership Examining the success of key leaders including Hugo Ch vez Fidel Castro and the Sandinistas in Nicaragua Raby shows that it is more necessary than ever to take power peacefully if possible but with the strength that comes from popular unity backed by force where necessary In this way democratic power can be built which may or may not be socialist depending on one s definition but which represents the real anti capitalist alternative for the twenty first century The Struggle for the World Charles Lindholm,José Pedro
