Welcome to Ms. Smith's Kindergarten Class!

Dear Parents/Guardians,

It is an absolute honor for me to be granted the opportunity to be your child's teacher this year. I am looking forward to a year filled with growth, learning, and fun! I am excited to see how your child will grow and develop throughout this year.

First and foremost, I want to express my gratitude for entrusting your child's education to me. Your commitment to your child's education is truly commendable, and I am grateful for the support you provide. Together, we will work to ensure that your child reaches their full potential.

Our goal for this year is to help your child develop a strong foundation in reading, writing, and math. We will also focus on social-emotional learning, problem-solving, and creativity. We will encourage your child to be an active participant in their learning, and to take ownership of their education. Your child will be exposed to a variety of learning experiences, including hands-on activities, group projects, and individual work. We will also provide opportunities for your child to explore their interests and passions, and to develop a love of learning.

Throughout this year, I will keep you informed about your child's progress, upcoming events, and important updates through newsletters, class emails, and parent-teacher conferences. Please feel free to contact me at any time if you have any questions or concerns.

Thank you for your support, and for allowing me to be a part of your child's education. I am excited to see what this year has in store for us all.

Yours truly,

Ms. Smith

(Please fill in the blank with your name.)

Welcome Letter To Parents Combined Grades:

The Conscious Teacher Deborah Nichols Poulos, 2020-01-13 The Conscious Teacher is about all kinds of strategies and techniques educators might employ to become more effective teachers. In an accessible conversational style Deborah Nichols Poulos presents unique approaches to teaching that will inspire new and veteran teachers alike. She begins with her personal story of not being able to read all through elementary school. Her early failures convinced her she was dumb. At first she struggled but when she still failed she adopted an avoidance strategy that served her well until junior high. An experience in the seventh grade flipped a switch and started her on a journey to becoming an outstanding student and later to applying the lessons she learned as a child to her own teaching. What makes The Conscious Teacher unique are the inspirational lessons that are unlike what most teachers get in their teacher education courses or student teaching. Ms Nichols Poulos points out for example that from the very first day it is important that students learn they will be treated with dignity and respect no matter what. And especially helpful are the steps Ms Nichols Poulos employs to set up a behavior management plan that works. She explains the strategic steps she takes before school starts how essential it is to get to know each student before they walk into class on that first day. She also illustrates how setting up classroom routines helps students know what to expect and how to make the best use of every minute. And she emphasizes the importance of the parent student teacher team and includes many examples of how to communicate with and involve parents even those who may be difficult. Foundational to her program are reading and writing. Among other things she lays out the steps for students even as early as fourth grade to write five paragraph essays and their own student authored books and to research and write reports that include bibliographies. When she differentiated curriculum to support all students needs she found their learning accelerated. All teachers will appreciate her ideas about how to teach the basics of math as well as advanced math concepts. And her ideas for teaching the arts are inspirational as she describes in detail how her fourth graders performed Shakespeare's Hamlet, Macbeth, King Lear, Julius Caesar and A Midsummer Night's Dream. She also shows how to integrate social studies with literature and writing. Her experiences taught her that young students are much more capable than many people realize. The Conscious Teacher is an indispensable guide for all new teachers. Many of the ideas Ms Nichols Poulos provides will also be an eye opener for parents and experienced teachers as well. The Conscious Teacher is simply a must have for anyone truly interested in giving young children a positive and solid foundation for their later schooling.
