Migration and the Making of Ireland Bryan Fanning,2021-11-02 Ireland has been shaped by centuries of emigration as millions escaped poverty famine religious persecution and war But what happens when we reconsider this well worn history by exploring the ways Ireland has also been shaped by immigration From slave markets in Viking Dublin to social media use by modern asylum seekers Migration and the Making of Ireland identifies the political religious and cultural factors that have influenced immigration to Ireland over the span of four centuries A senior scholar of migration and social policy Bryan Fanning offers a rich understanding of the lived experiences of immigrants Using firsthand accounts of those who navigate citizenship entitlements gender rights and religious and cultural differences in Ireland Fanning reveals a key yet understudied aspect of Irish history Engaging and eloquent Migration and the Making of Ireland provides long overdue consideration to those who made new lives in Ireland even as they made Ireland new **Migration and social policy in a changing world** Bryan Fanning,2026-01-13 Migration and social policy in a changing world bridges the generally separate fields of social policy and migration studies This book traces social policy responses to migration from the Industrial Revolution to today s era of globalisation and large scale migration Through case studies from across the globe the book explores key themes including rural urban migration social citizenship welfare internationalism and diasporic care systems It examines how migrants are included in or excluded from social citizenship in host societies and how they become providers of welfare services such as health and social care Moving beyond a methodological nationalist focus the book investigates migrant incorporation into welfare states through family networks faith communities and other informal welfare structures It combines migrants experiences with host societies immigration politics institutional perspectives and policies to present a comprehensive analysis of the migration welfare relationship This volume fills a gap in academic literature and offers policymakers practitioners and scholars a framework for understanding the interplay between migration and social policy in our changing world **Rethinking the Irish Diaspora** Johanne Devlin Trew,Michael Pierse,2018-03-13 This book provides scholarly perspectives on a range of timely concerns in Irish diaspora studies It offers a focal point for fresh interchanges and theoretical insights on questions of identity Irishness historiography and the academy s role in all of these In doing so it chimes with the significant public debates on Irish and Irish emigrant identities that have emerged from Ireland s The

Gathering initiative 2013 and that continue to reverberate throughout the Decade of Centenaries 2012-2023 in Ireland North and South. In ten chapters of new research on key areas of concern in this field the book sustains a conversation centred on three core questions: what is diaspora in the Irish context and who does it include/exclude? What is the view of Ireland and Northern Ireland from the diaspora? How can new perspectives in the academy engage with a more rigorous and probing theorisation of these concerns? This thought-provoking work will appeal to students and scholars of history, geography, literature, sociology, tourism studies and Irish studies.

Caring for the Socially Marginalised in Interwar Europe, 1919-1939

Michele Mioni, Stefano Petrungaro, 2024-11-07. This book investigates the mixed economy of welfare that assisted socially marginalised people in interwar Europe, namely the state, local authorities and a combination of voluntary and informal actors. While literature has traditionally emphasised the key role of the state, the cooperation between public authorities and private actors has always been a staple of social policy in Europe throughout history. The interwar years prominently featured these entanglements between the increased public sphere of action and the voluntary sector. Focusing on three thematic areas: warfare and its effects, boundaries of aid and institutional segregation, and gender and religion, the authors present case studies from various European countries between 1919 and 1939. All contributions explore the variegated world that composed the so-called mixed economy of welfare. By shifting the emphasis to the collaborations and frictions between social marginals, non-state actors and public authorities on a local, national and transnational level, the book challenges too simplistic distinctions between public and private initiatives and reveals the cultural, political and practical common traits that featured in European care for marginals across a variety of geographical variations and socio-political contexts.

[Open Heart, Open Arms](#) Alan Hilliard, 2016-09-28. The aim of this booklet is to help foster an understanding of the plight of migrants that leads to action in the local faith community. Understanding of the role of the Christian towards the ever more present reality of migration and of the great Catholic tradition of hospitality is more important than ever, especially if we want or desire to make the appropriate response. The actions may not change situations in the homelands from which people migrated in the first place, but the action we undertake in our neighborhood where we live together can have amazing impacts for the stranger for us and for our community, eventually influencing policy via our mutual understanding of the way our world is functioning or not functioning. The information in this booklet will hopefully help nurture the instincts of those who wish to make a difference in the face of the current crisis which brings with it so much tragedy. Author interviewed on High Noon on Newstalk with George Hook.
