Google, Amazon, and Beyond: Creating and Consuming Web Services Alexander Nakhimovsky, Tom Myers, 2008-01-01 What Is This Book About This is a book about Web Services Web Services are still more like a movement than a mature technology The movement is motivated by a vision of a semi auto mated Web that can support long chains of interactions between autonomous agents There are three important components to that vision One is interoperabil ity a service can have clients agents from any platform in any language Another is autonomy an agent can discover the services it needs from their published descriptions that include both what the service can do and how it does it the interfaces of available actions The third is semi automatic code creation one description can be used by a development framework to automate the creation of code for clients and by the services themselves As of today interoperability is close to full realization with only occasional glitches autonomy is a distant vision but it still has problems Interoperability has been achieved code creation is useful in part by using an XML based high level protocol SOAP for message exchanges between clients and services As long as the client can produce messages in the right format it doesn t matter what language they re written in or on what platform they run The first three chapters of our book show how to write platform independent Web Services clients in Javascript and Java running from within a browser IE6 or Mozilla

Rethinking Techno-Politics in the Digital Age: Global Technology Relations and Security Arslan, Alp Cenk, Tinas, Murat, 2025-10-08 As digital technologies continue to grow in every facet of society rethinking techno politics in the digital age has become imperative to growth The intersection of technology and power is reshaping governance and raises the questions about control and accountability This evolving landscape calls for a reexamination of how policies are shaped who benefits from technological advancements and how democratic principles can be preserved in an increasingly data driven world Rethinking Techno Politics in the Digital Age Global Technology Relations and Security explores the rise of digital infrastructures the impact of new technologies on political and social culture and the strategic role of technology in global power dynamics This book fills a critical gap in the discourse surrounding technology s role in governance security and societal transformations Covering topics such as politics governance and technology this book is an excellent resource for academicians policymakers and technology professionals

Interactions Between Biosphere, Atmosphere and Human Land Use in the Amazon Basin Laszlo Nagy, Bruce R. Forsberg, Paulo Artaxo, 2016-11-09 This book offers a panorama of recent scientific achievements produced through the framework of the Large Scale Biosphere Atmosphere programme LBA and other research programmes in the Brazilian Amazon The content is highly interdisciplinary with an overarching aim to contribute to the understanding of the dynamic biophysical and societal socio economic structure and functioning of Amazonia as a regional entity and its regional and global climatic teleconnections The target readership includes advanced undergraduate and post graduate students and researchers seeking to untangle the gamut of interactions that the Amazon s complex biophysical and social system

represent **Weaknesses of the Amazon Marketplace. Which factors contribute to the fact that suppliers are increasingly looking for new trading platforms?** Manuel Weber, 2021-03-30 Seminar paper from the year 2021 in the subject Business economics Trade and Distribution grade 2.0 Private University Schloss Seeburg language English abstract The aim of this research was to identify the reasons that lead Amazon sellers to move away from the marketplace and look for alternative opportunities Derived from this the research question arises Which factors contribute to the fact that suppliers are increasingly looking for new trading platforms as an alternative to the Amazon marketplace With the help of a literature research of theory and practical context hypotheses were developed which were examined by means of an expert interview Amazon is one of the largest companies in this age With its marketplace Amazon can generate the greatest reach in order to reach customers The problem that retailers currently have to deal with are on the one hand the extremely high fees that you have to pay to Amazon in order to be listed on the market at all and on the other hand the customer friendly and retailer unfriendly service from Amazon especially for complaints and returns is increasingly no longer acceptable for many retailers This means that many retailers have to look for alternative sales opportunities in order to remain competitive However it is extremely difficult to create such a simple and customer friendly online shop as Amazon or to find an alternative with the same large reach as Amazon Ultimate Economic Conflict between China and Democratic Countries C.Y.C. Chu, P.C. Lee, C.C. Lin, C.F. Lo, 2022-05-05 This book investigates various dimensions of the economic conflicts between the US and other democratic market economy countries and state capitalist communist China in the past decade examining how differences in institutions and ideology bring these about Through the lens of institutional analysis the book elaborates and explains the underlying institutional designs and reasons behind the disputes highlighting how such variances are embedded and reflect fundamental value divergences between China and other democratic countries This book will be of key interest to scholars students and practitioners in law economics political sciences international relations international organisations and global governance **E-commerce Evolution in Asia and the Pacific** Asian Development Bank, 2023-11-01 This report analyzes e commerce in Asia and the Pacific assesses its environmental impact and explains why providing adequate internet online payments and last mile logistics is key to creating a sustainable and inclusive digital marketplace Noting the region makes up the largest share of the world's online retail market it tracks the impact of the pandemic and emphasizes the need to level the playing field for small businesses It outlines ways for companies to measure their carbon footprint highlights the potential risk of anti competitive behavior and explains the need to improve digital taxation policies in line with e commerce's rapid growth **Trump Returns For 2025!** Jeremy Stone, 2021-03-23 For half a century the global elite have set the world stage for the two remaining world superpowers the United States and China to compete for the world's dominance in technological economic and new emerging global markets As recent deadlines have been set for 2025 through 2029 the window of opportunity for the absolution of world dominance over these industries is quickly shrinking for America paving
