Virtual Competition Ariel Ezrachi, Maurice E. Stucke, 2016-11-14 A fascinating book about how platform internet companies Amazon Facebook and so on are changing the norms of economic competition Fast Company Shoppers with a bargain hunting impulse and internet access can find a universe of products at their fingertips But is there a dark side to internet commerce This thought provoking expos invites us to explore how sophisticated algorithms and data crunching are changing the nature of market competition and not always for the better Introducing into the policy lexicon terms such as algorithmic collusion behavioral discrimination and super platforms Ariel Ezrachi and Maurice E Stucke explore the resulting impact on competition our democratic ideals our wallets and our well being We owe the authors our deep gratitude for anticipating and explaining the consequences of living in a world in which black boxes collude and leave no trails behind They make it clear that in a world of big data and algorithmic pricing consumers are outgunned and antitrust laws are outdated especially in the United States Science A convincing argument

that there can be a darker side to the growth of digital commerce The replacement of the invisible hand of competition by the digitized hand of internet commerce can give rise to anticompetitive behavior that the competition authorities are ill equipped to deal with Burton G Malkiel Wall Street Journal A convincing case for the need to rethink competition law to cope with algorithmic capitalism s potential for malfeasance John Naughton The Observer Intellectual Property and Emerging Technologies Tshimanga Kongolo,2024-11-15 This book evaluates issues and challenges emerging from the interaction between intellectual property IP and new technologies namely artificial intelligence AI big data social media internet of things IoT metaverse blockchain video gaming and voice cloning New technologies have not only shaken the current IP system but show the limits of a framework which was designed more than three centuries ago As technological innovations have rendered some established IP rules and principles difficult to apply new approaches are required to adequately respond to ensuing challenges This volume uses existing case studies and prevailing court decisions to underline the dynamic of the current system It proposes adjustments to accommodate new technologies within the current IP structure The book reflects on the challenges created by new technologies and explores alternative ways to respond to these issues This book will assist IP experts academics professionals and policy makers in their undertakings to understand various issues generated by new technologies It will also be of interest to researchers in the field of IP law and the law of emerging technologies

Handbook of Research on Cyber Law, Data Protection, and Privacy Dewani, Nisha Dhanraj,Khan, Zubair Ahmed,Agarwal, Aarushi,Sharma, Mamta,Khan, Shaharyar Asaf,2022-04-22 The advancement of information and communication technology has led to a multi dimensional impact in the areas of law regulation and governance Many countries have declared data protection a fundamental right and established reforms of data protection law aimed at modernizing the global regulatory framework Due to these advancements in policy the legal domain has to face many challenges at a rapid pace making it essential to study and discuss policies and laws that regulate and monitor these activities and anticipate new laws that should be implemented in order to protect users The Handbook of Research on Cyber Law Data Protection and Privacy focuses acutely on the complex relationships of technology and law both in terms of substantive legal responses to legal social and ethical issues arising in connection with growing public engagement with technology and the procedural impacts and transformative potential of technology on traditional and emerging forms of dispute resolution Covering a range of topics such as artificial intelligence data protection and social media this major reference work is ideal for government officials policymakers industry professionals academicians scholars researchers practitioners instructors and students **Artificial Intelligence in Recruiting. A Literature Review on Artificial Intelligence Technologies, Ethical Implications and the Resulting Chances and Risks** Matthias Rudolph,2021-01-07 Master s Thesis from the year 2020 in the subject Computer Sciences Artificial Intelligence grade 1 3 Friedrich Alexander University Erlangen Nuremberg Wirtschaftsinformatik language English abstract The thesis aims to analyze this field of tension between the benefits and

risks caused by the introduction of AI into recruiting based on a systematic analysis of academic publications To the knowledge of the author neither a literature review on ethical challenges of AI based recruiting tools nor an overview addressing application fields and the resulting ethical risks has been published so far Consequently this thesis aims to close this research gap by disclosing how AI technologies affect the recruiting process and how ethical challenges arising from the implementation of AI based tools are addressed in the same publications Consequently research question RQ one RQ1 and RQ two RQ2 can be derived Which AI technologies are applied in the field of recruiting and how do they influence the recruiting process Which major ethical challenges arise from the introduction of AI into recruiting and how are these challenges addressed by the proposed AI based tools Addressing these two RQs the remainder of this thesis is structured as follows Chapter 2 classifies recruiting and its subprocesses as a part of Human Resources HR establishes a common understanding of AI and machine learning ML algorithms relevant in AI based recruiting tools and derives major ethical challenges with a focus on the ethical principles fairness and transparency In chapter 3 the methodical approach used for identifying and selecting relevant literature is described Chapter 4 answers both RQs based on the AI based recruiting tools included in the literature set In turn the first part of the analysis focuses on analyzing how the needs raised through traditional recruiting means are addressed by AI based recruiting tools also touching base on the underlying technologies The second part addresses if and where applicable how these publications incorporate fairness and transparency Subsequently chapter 5 discusses the main findings of the analysis of the literature set and provides implications for theory and practice followed by a brief conclusion and the outlining of limitations and future research fields in chapter 6
