Unjust by Design Ron Ellis, 2013-03-01 Canadian legislatures regularly assign what are truly court functions to non court government tribunals These executive branch judicial tribunals are surrogate courts and together comprise a little known system of administrative justice that annually makes hundreds of thousands of contentious life altering judicial decisions concerning the everyday rights of both individuals and businesses This book demonstrates that except perhaps in Quebec the administrative justice system is a justice system in name only Failing to conform to rule of law principles or constitutional norms its tribunals are neither independent nor impartial and are only providentially competent Unjust by Design describes a justice system in transcendent need of major restructuring and provides a blueprint for change **Social Dynamics of Organizational Justice** Stephen W.
