Marines are also engaged in many military operations other than war such as peacekeeping missions or noncombatant evacuation operations where deadly force may not be authorized. During non-combative engagements, Marines must determine if a situation warrants applying deadly force. Sometimes, Marines must decide in a matter of seconds because their lives or the lives of others depend on their actions. To make the right decision, Marines must understand both the lethal and nonlethal close combat techniques needed to handle the situation responsibly without escalating the violence unnecessarily. Marine Corps Reference Publication MCRP 3-02B Close Combat provides the tactics, techniques, and procedures of Marine Corps close combat. It also provides the doctrinal basis for the Marine Corps Close Combat Training Program (MCCCTP). This manual contains the following chapters: Overview of Close
