*All in Her Head* Elizabeth Comen,2024-02-13 Finalist for the 2025 PEN E O Wilson Literary Science Writing Award USA Today Bestseller All in Her Head accomplishes a remarkable feat of storytelling By combining essential medical histories about women s bodies with all the narrative propulsion of a medical thriller Comen has written a must read compelling and important book Siddhartha Mukherjee Pulitzer Prize winning author of *The Emperor of All Maladies* and *The Song of the Cell* Wow This book will upend everything you thought you knew about your body while empowering you to make better decisions moving forward Through storytelling extensive research and easy recommendations Dr Elizabeth Comen has given us all a priceless road map to reclaim our agency Eve Rodsky author of *Fair Play* A surprising groundbreaking and fiercely entertaining medical history that is both a collective narrative of women s bodies and a call to action for a new conversation around women s health For as long as medicine has been a practice women s bodies have been treated like objects to be practiced on examined and ignored idealized and sexualized shamed subjugated mutilated and dismissed The history of women s healthcare is a story in which women themselves have too often been voiceless a narrative instead written from the perspective of men who styled themselves as authorities on the female of the species yet uninformed by women s own voices thoughts fears pain and experiences The result is a cultural and societal legacy that continues to shape the mis treatment and care of women While the modern age has seen significant advancements in the medical field the notion that female bodies are flawed inversions of the male ideal lingers on as do the pervasive societal stigmas and lingering ignorance that shape women s health and relationships with their own bodies Memorial Sloan Kettering oncologist and medical historian Dr Elizabeth Comen draws back the curtain on the collective medical history of women to reintroduce us to our whole bodies how they work the actual doctors and patients whose perspectives and experiences laid the foundation for today s medical thought and the many

oversights that still remain unaddressed With a physician s knowledge and empathy Dr Comen follows the road map of the eleven organ systems to share unique and untold stories drawing upon medical texts and journals interviews with expert physicians as well as her own experience treating thousands of women Empowering women to better understand ourselves and advocate for care that prioritizes healthy and joyful lives for us and generations to come All in Her Head is written with humor wisdom and deep scientific and cultural insight Eye opening sometimes enraging yet always captivating this shared memoir of women s medical history is an essential contribution to a holistic understanding and much needed reclaiming of women s history and bodies #artselfie Simon Castets,DIS (Organization),2014 artselfie opens with an incisive remark by Douglas Coupland who warns us that Selfies are mirrors we can freeze Selfies allow us to see how others look at themselves in a mirror making their modeling face when nobody s around except these days everybody s around everywhere all the time artselfie emerged in 2012 right as the recent photographic phenomenon known as the selfie reached it s tipping point It was subsequently activated by New York based collective DIS as an aggregated mode of art tourism and documentation These selfies and their dialogue with art are an opportunity to revisit fundamental questions such as if art is a mirror what happens when we place ourselves between it and the camera The traditional trajectory from photographer to subject via the camera has been subverted and with it the nature of images and our perception of them The artselfie makes every participant both protagonist and collaborator consumer and producer Including an introduction by Douglas Coupland author of Generation X Tales for an Accelerated Culture and ruthless observer of contemporary society and a discussion between Simon Castets director of the Swiss Institute in New York and co founder of the 89 project and DIS artselfie allows us to experience how significant and seductive this viral phenomenon is *Introduction to Information Systems* R.
