Coats,Patricia Enciso,Christine Jenkins,2011-04-27 This landmark volume is the first to bring together leading scholarship on children s and young adult literature from three intersecting disciplines Education English and Library and Information Science Distinguished by its multidisciplinary approach it describes and analyzes the different aspects of literary reading texts and contexts to illuminate how the book is transformed within and across different academic figurations of reading and interpreting children s literature Part one considers perspectives on readers and reading literature in home school library and community settings Part two introduces analytic frames for studying young adult novels picturebooks indigenous literature graphic novels and other genres Chapters include commentary on literary experiences and creative production

from renowned authors and illustrators Part three focuses on the social contexts of literary study with chapters on censorship awards marketing and literary museums The singular contribution of this Handbook is to lay the groundwork for colleagues across disciplines to redraw the map of their separately figured worlds thus to enlarge the scope of scholarship and dialogue as well as push ahead into uncharted territory Transforming Libraries, Building Communities Julie Biando

Edwards,Melissa S. Robinson,Kelley Rae Unger,2013-05-30 This book is for those moving their library beyond places to find information Written by practicing public librarians and an academic librarian with an interest in public libraries the book focuses on how public libraries can become more community centered and by doing so how they can transform both themselves and their communities The authors argue that focusing on building community through innovative and responsive services and programs will be the best way for the public library to reposition itself in the years to come Repositioning the library acknowledges that information is in abundance in contemporary life And while accessing information will always be at the heart of what libraries do it isn't the only thing they do It may not be in the future even the most important thing that they do This book encourages librarians to admit that our role has evolved and to reframe the discussion so that it is about what we actually can do play an essential role in meeting community needs and building strong and vibrant local communities The authors argue that repositioning libraries as community centered institutions is a responsibility Libraries bring people together They create community and they also create mini communities everything from book groups to writing circles to new citizen groups to linguistic or ethnic communities reflected in programming and in collections These mini communities help provide fellowship and foster relationships amongst the group members but also because they exist in the public place that is the library help the larger community recognize and learn about the mini communities that create the larger community This is the work of libraries The book is divided into three parts which include explorations into the importance of the community centered library practical advice on making your library more community centered and a showcase of community centered library programs services and initiatives across the United States A special focus of the book is on how community development literature and practice can inform librarianship with an emphasis on Asset Based Community Development principles The book looks at how community centered libraries build individual and community assets and how in doing so they serve as essential community anchors and institutions **101+ Great Ideas for Teen**
