Box Office Reddit This Month:

Girl of Steel Melissa Wehler, Tim Rayborn, 2020-03-06 The CW's hit adaptation of Supergirl is a new take on the classic DC character for a new audience. With diverse female characters it explores different versions of the female experience. No single character embodies a feminist ideal but together they represent attributes of the contemporary feminist conversation. This collection of new essays uses a similar approach, inviting a diverse group of scholars to address the many questions about gender roles and female agency in the series. Essays analyze how the series engages with feminism, Supergirl's impact on queer audiences, and how families craft the show's feminist narratives. In the ever-growing superhero television genre, Supergirl remains unique as viewers watch a female hero with almost godlike powers face the same struggles as ordinary women in the series.

New Blood Eddie Falvey, Jonathan Wroot, Joe Hickinbottom, 2021-01-15 This book signifies innovative developments in horror cinema research as well as the current state of the genre within the film and media industries. It is an injection of fresh insights into horror cinema scholarship. This is a book that includes academic studies from established scholars and early career researchers as well as fans of horror cinema.

The Twin Film Phenomenon Lauren Rosewarne, 2025-11-18 This book examines the recurring phenomenon in film and television where two strikingly similar productions are released in close succession. Examples include *Armageddon* 1998 and *Deep Impact* 1998, *A Bug's Life* 1998 and *Antz* 1998, and more recently the 2019 *Fyre Festival* documentaries and the 2024 *Prince Andrew* docudramas. Drawing from hundreds of cases, this book explores why these twin productions emerge, the industrial and creative forces that drive them, and how they reflect broader trends in media history. Situating this pattern within the fields of remake adaptation and media multiplicities, this book provides a comprehensive analysis of this largely understudied yet pervasive phenomenon. Each chapter examines different motivations behind the creation of twin films and TV shows, from economic imperatives and competitive market dynamics to shared cultural anxieties and trends in audience demand. This book presents a meticulous catalogue of examples demonstrating how genres and themes gain traction simultaneously across different studios and networks. In addition to offering historical insights, this book engages with contemporary debates on media repetition, nostalgia, and Hollywood's fixation on reproducing familiar narratives. Written by an author with extensive expertise in media studies, this book combines exhaustive research with a clear, accessible style, making it an essential resource for understanding the mechanisms behind content duplication in the entertainment industry. Academically, this book contributes to scholarship in film, television, and media studies by applying an interdisciplinary approach that integrates political science, feminist theory, and cultural analysis. It draws on close readings of films, industry reports, and a dataset of critical reviews to provide fresh perspectives on media production and consumption. As a valuable resource for students and scholars alike, it enriches discussions on screen media, industrial production, and the cultural forces shaping contemporary entertainment.

A New Approach to Reading Videogames as Story Thomas Rowland, 2026-01-27 This book introduces a new methodology for understanding videogames with particular attention to three types of videogames toy games storybook games and ludonarratives This methodology pulls from phenomenological and deconstructionist roots informed by medieval studies and the history of reading to emphasize how important playing stories can be as a form of narrative This book explores the idea of storyplaying in connection with new ideas on intramersive movement game mechanics and sacred play to develop a typology of videogames that will enable critics educators and theorists to situate videogames within a broad continuum of literary history Building on this foundation this book continues by exploring additional facets of this methodology by exploring the relationship between videogames and film criticism the emerging art world of game mediated photography the various economies constructed around videogames the potential of games to serve as third places and some suggestions for videogames in the classroom These ideas are

contextualized by the author's argument that videogames serve a purpose akin to the original function of medieval cathedrals as intentional virtual spaces with dedicated and important meditation which given today's decadent cultural and political climate underscores the urgency of recognizing videogames as being vital to our scholarly and educational enterprises
