**Suffering in Silence** Kathleen Colagiovanni,2024-06-20

These true events may be hard for some people to read From child abuse to negligent care from medical professionals this is Jomar s story At only three months old Jomar suffered traumatic injuries throughout his body alongside a life threatening birth defect There were many instances where this child should not have survived due to the bodily harm that he endured A young mother began fighting for the rights of her child as she tried to prove her innocence The tattoos that were laid over her body like a canvas only made her look more threatening in the eyes of the world In order to get justice for her child she went through hell and back Yet no justice has been served Hopefully this will bring light to the horrific acts against a newborn child and the pain his mother had to endure Now at only two years old Jomar cannot remember the pain that he went through nor can he speak to tell his story

Cheney,2017-03-05 The HIV AIDS epidemic in Africa has defined the childhoods of an entire generation Over the past twenty years international NGOs and charities have devoted immense attention to the millions of African children orphaned by the disease But in Crying for Our Elders anthropologist Kristen E Cheney argues that these humanitarian groups have misread the orphan crisis She explains how the global humanitarian focus on orphanhood often elides the social and political circumstances that actually present the greatest adversity to vulnerable children in effect deepening the crisis and thereby affecting children's lives as irrevocably as HIV AIDS itself Through ethnographic fieldwork and collaborative research with children in Uganda Cheney traces how the best interest principle that governs children's rights can stigmatize orphans and leave children in the post antiretroviral era even more vulnerable to exploitation She details the dramatic effects this has on traditional family support and child protection and stresses child empowerment over pity Crying for Our Elders advances current discussions on humanitarianism children's studies orphanhood and kinship By exploring the unique experience of AIDS orphanhood through the eyes of children caregivers and policymakers Cheney shows that despite the extreme challenges of growing up in the era of HIV AIDS the
