Disney's Animated Classics Stephen Rötzsch, Thomas, 2025-12-30 Which Disney character is responsible for the most onscreen deaths? What are the entry requirements for becoming a Disney Princess? Why is Jiminy Cricket always breaking into people's homes? In Disney's Animated Classics, Stephen Rötzsch Thomas explores the iconic features from the studio's first 100 years from Snow White to Wish. A love letter to storytelling and collaboration, each chapter takes readers behind the scenes of a different movie, uncovering the hidden secrets, creative geniuses, and surprising connections that will enthrall die-hard Disney fans and casual viewers alike. Disney's Animated Classics examines how the studio's films have shaped and been shaped by the world around them and how they have attempted to reflect a changing culture. From the studio's representation of race and sexuality to its fluctuating creative fortunes through the decades, Rötzsch Thomas offers an unflinchingly funny history of one of the biggest icons in cinema. His unauthorised deep dive is an irreverent but loving tribute to the films that have defined generations of childhoods. Whether you're a self-proclaimed Disney Adult, a film fan looking to learn about the animation behemoth, or just someone trying to understand why Robin Hood was responsible for your sexual awakening, there's something for you here.

The Film Weekly, 1955 **Cinematic Digital Television** Chris Comerford, 2022-12-20 Chris Comerford explores cinematic digital television as an artistic classification and an academic object of study and illuminates the slippage in definitions of previously understood media forms. The growth of television as an artistic informative medium has given rise to shifts in the aesthetic style of the programmes we watch and this book outlines these shifts along with the contemporary debates and critical theory surrounding them. Comerford looks at the forms and aesthetics of television, the production standards influencing streaming television and the agency of audiences and provides case studies of key TV shows illustrating these shifts including Twin Peaks, The Return, WandaVision, Hacks and Russian Doll.
