Engineer/ Technical Writer

@ericjacob

To,
Margaret Larson
Hiring Manager
JK Softwares Limited
452 Cimarron Road
Los Angeles, California

Dear Ms. Larson,

I'm keen to apply for the Technical Writer position at JK Softwares Limited. As an Engineer with appreciable writing skills, I believe my ability to bend words and sentences in their most simplest and unambiguous form makes me a good fit for this post.

I graduated with a diploma in Software Engineering not more than 5 years ago. I've had a passion for writing ever since my school days and as I progressed towards a specific field in academia, I realized people are missing out on multiple aspects of tech, merely because most documentations and resources are full of complexities which could be easily represented in a far more digestible form. This gave me the motivation to take up Technical Writing full time and stepping out of the norms of software development jobs.

As for my experiences in writing, during my college years I've had the opportunity to work with some of my Professors in their research through writing manuscripts and simple documentations. In my senior year, I worked at Inertia Tech LLC as a Junior Technical Writer intern for 3 months which finally turned into a permanent position. My day to day life included keeping all documentations up-to-date across multiple platforms, working closely with engineers in different projects and helping them in preparing manuals, plans and documents. I'm well versed with the use of different word processing tools and even preparing minimal visuals relevant to the written materials, good at communicating my thoughts in a professional manner and a self driven person respective towards deadlines so I'm quite confident that I can be a valuable addition to the team.

Looking forward to hearing from you if I am considered as a potential applicant. Thank you for your consideration.

Sincerely,

Eric Jacob

Engineer/Technical Writer

web equilibrium questions a covalent bond has a standard gibbs free energy of 400 kJ/mol while the hydrogen bond and van der waals forces have substantially lower values respectively 25 and 5 kJ/mol given such ΔG values which of the following is equivalent to the ratio of the K_{eq} value of a covalent bond to that of a hydrogen bond

equilibrium ap college chemistry science khan academy - May 17 2022

web this unit explores the how and why of chemical equilibrium learn about reversible reactions the equilibrium constant le châtelier s principle solubility equilibria and more practice what you ve learned and study for the ap chemistry exam with more than 80 ap aligned questions

8 1 an introduction to equilibrium chemistry libretexts - Dec 24 2022

web jun 16 2020 summary skills to develop to understand what is meant by chemical equilibrium two methods to describe the likely result of a chemical reaction in the previous chapter we discussed the principles of chemical kinetics which deal with the rate of change or how quickly a given chemical reaction occurs

11 1 introduction to chemical equilibrium chemistry libretexts - Sep 01 2023

web nov 13 2022 define the equilibrium state of a chemical reaction system what is its practical significance state the meaning and significance of the following terms reversible reaction quantitative reaction kinetically inhibited reaction explain the meaning of the statement equilibrium is macroscopically static but microscopically dynamic very

4 1 introduction to chemical equilibrium - Jul 19 2022

web in a chemical equilibrium the forward and reverse reactions occur at equal rates and the concentrations of products and reactants remain constant if we run a reaction in a closed system so that the products cannot escape we often find the reaction does not give a 100 yield of products
