*Linking Reading Assessment to Instruction* Arleen Shearer, Mariotti, Susan P. Homan, Arleen P. Shearer, 2005-05-06 This worktext applies current theory to classroom practice by providing in each chapter a brief explanation of major concepts followed by guided practical experience in administering, scoring, and interpreting reading assessment techniques. Like the popular previous editions, the Fourth Edition emphasizes the use of assessment and diagnosis for instructional decision making rather than for simply giving grades. It stresses the use of informal assessment techniques reflecting the current emphasis in educational assessment theories but also includes coverage of standardized test scores, provides both classroom tested results and interpretations of the data, giving students step by step experience in administering, scoring, and interpreting assessment techniques, and includes numerous hands on activities. For children to be good readers, they must be taught phonemic awareness, phonics, skills, how to read fluently, and how to apply comprehension strategies. *Linking Reading Assessment to Instruction: An Application Worktext for Elementary Classroom Teachers*, Fourth Edition covers all four areas. This text is designed for undergraduate or graduate reading methods courses that include a diagnosis component, reading diagnosis courses, exceptional education courses, and inservice courses on reading literacy development. Changes in the Fourth Edition discussion of the text's relationship to the areas of reading proposed by the National Reading Panel Report, phonemic awareness, phonics, fluency, vocabulary, and comprehension, updated Suggested Readings for all chapters, additional references to diagnostic assessments for word analysis skills and spelling stages, additional grouping scenarios, new section on determining a diagnostic path with instructional suggestions, relevant ESOL information added in several places, and revised
