Case Study Amazon. Analysis and Decision Making Ricardo Escoda, 2018-05-17 Case Study from the year 2018 in the subject Business economics General grade 17 International School of Management Campus Munich language English abstract As the number of publications referring to Amazon increased formidable during the last years it is a highly discussed retail brand which is becoming more and more important. In July 2016 the UK trade marketing association DMA1 published a study showing Amazon as favorite retail brand amongst competitors like John Lewis Marks Spencer eBay and ASOS. Every fourth of the 1000 participants voted for Amazon even though they were not given a shortlist with answers but an empty text box to fill in their favorable retail brand. This paper deals with aspects referring to the research fields Advanced Strategic Management Business Development and International Business Game. At the end of each part a summary with the most fundamental information helps to build a broad overview.

Accessible text provides quick reference. **Platform Neutrality Rights** Hannibal Travis, 2024-07-24 This book analyzes questions of platform bias, algorithmic filtering and ranking of Internet speech and declining perceptions of online freedom. Courts have intervened against unfair platforms in important cases but they have deferred to private sector decisions in many others, particularly in the United States. The First Amendment, human rights law, competition law, Section 230 of the Communications Decency Act and an array of state and foreign laws address bad faith conduct by Internet platforms or other commercial actors. Arguing that the problem of platform neutrality is similar to the net neutrality problem the book discusses

the assault on freedom of speech that emerges from public private partnerships The book draws parallels between U S constitutional and statutory doctrines relating to shared spaces and the teachings of international human rights bodies relating to the responsibilities of private actors It also connects the dots between new rights to appeal account or post removals under the Digital Services Act of the European Union and a variety of fair treatment obligations of platforms under American and European competition laws public accommodations laws and public utilities laws Analyzing artificial intelligence AI regulation from the point of view of social media and video platform users the book explores overlaps between European and U S efforts to limit algorithmic censorship or shadow banning The book will be of interest to students and scholars in the field of cyberlaw the law of emerging technologies and AI law **Marketing** Eric N. Berkowitz,2002 The fifth edition of *Marketing* is the result of a detailed and rigorous developmental process designed to provide customer value in several ways first we continue to use the active learning approach that has been the foundation of our previous editions Second we have incorporated many new examples tools and design elements that are consistent with the learning styles for today s students Third we have added deleted and modified topics and content based on our own expertise and the advice of may knowledgeable reviewers Overall the fifth edition of *Marketing* represents our efforts to guarantee the high quality of previous editions and to continue our tradition of growth and improvement
