No Place Like Home C.J. Janovy, 2018-01-15 Far from the coastal centers of culture and politics Kansas stands at the very center of American stereotypes about red states In the American imagination it is a place LGBT people leave No Place Like Home is about why they stay The book tells the epic story of how a few disorganized and politically naive Kansans realizing they were unfairly under attack rolled up their sleeves went looking for fights and ended up making friends in one of the country's most hostile states The LGBT civil rights movement's history in California and in big cities such as New York and Washington DC has been well documented But what is it like for LGBT activists in a place like Kansas where they face much stiffer headwinds How do they win hearts and minds in the shadow of the Westboro Baptist Church Christian motto God Hates Fags Traveling the state in search of answers from city to suburb to farm journalist C J Janovy encounters LGBT activists who have fought in ways big and small for the acceptance and respect of their neighbors their communities and their government Her book tells the story of these twenty first century citizen activists the issues that unite them the actions they take and the personal and larger consequences of their efforts however successful they might be With its close up view of the lives and work behind LGBT activism in Kansas No Place Like Home fills a prairie sized gap in the narrative of civil rights in America The book also looks forward as an inspiring guide for progressives concerned about the future of any vilified minority in an increasingly polarized nation

Terms of Service Jacob Silverman, 2015-03-17 Social networking has grown into a staple of modern society but its continued evolution is becoming increasingly detrimental to our lives. Shifts in communication and privacy are affecting us more than we realize or understand. *Terms of Service* crystalizes this current moment in technology and contemplates its implications: the identity validating pleasures and perils of online visibility, our newly adopted view of daily life through the lens of what is share worthy, and the surveillance state operated by social media platforms Facebook, Google, Twitter, and others to mine our personal data for advertising revenue. An invasion of our lives that is as pervasive as government spying. Jacob Silverman calls for social media users to take back ownership of their digital selves from the Silicon Valley corporations who claim to know what's best for them. Integrating politics, sociology, national security, pop culture, and technology, he reveals the surprising conformity at the heart of Internet culture, explaining how social media companies engineer their products to encourage shallow engagement and discourage dissent. Reflecting on the collapsed barriers between our private and public lives, Silverman brings into focus the inner conflict we feel when deciding what to share and what to like, and explains how we can take the steps we need to free ourselves from its grip
