Advertising and Public Memory Stefan Schutt, Sam Roberts, Leanne White, 2016-08-05 This is the first scholarly collection to examine the social and cultural aspects on the worldwide interest in the faded remains of advertising signage popularly known as ghost signs. Contributors to this volume examine the complex relationships between the signs and those who commissioned them, painted them, viewed them and viewed them today. Topics covered include cultural memory, urban change, modernity and belonging, local history and place making, the crowd sourced use of online mobile and social media to document and share digital artefacts, retro design and the resurgence in interest in the handmade. The book is international and interdisciplinary, combining academic analysis and critical input from practitioners and researchers in areas such as cultural studies, destination marketing, heritage advertising, design, social history and commercial archaeology.

A Panorama of Linguistic Landscape Studies Durk Gorter, Jasone Cenoz, 2023-10-10 Language is on display all around us all the time and the study of this linguistic landscape is one of the fastest growing areas of research in applied linguistics. This book provides an overview of how the field of Linguistic Landscape Studies has emerged and developed over the past 20 years, combined with an in-depth exploration of the theoretical approaches, innovative research methods and major themes that have been central to this dynamic area of research. Written by two authors who have been involved in the field from its inception, the book features summaries of studies from around the world, a discussion of the future of the field and an analysis of the impact of linguistic landscape research on language policy, language learning and teaching, and minority language revitalization. It will be an invaluable companion for students and researchers in Linguistic Landscape Studies as well as to those working in related areas. The book is open access under a CC BY NC ND licence.

Understanding Government Information Connie Hamner Williams, 2017-10-30 This book demonstrates how government information can be used to engage students through inquiry and project based activities, thereby providing opportunities for creative investigation and discovery. Many government agencies and institutions provide educators with curricula, lesson plans, data and direction, all of it free. But to access this largely hidden world of government information, one needs an understanding of how this government information is organized and knowledge about how to best utilize the finding aids, databases and other search mechanisms to help guide effective research. This guidebook shows you how to locate high-quality, effective lesson plans developed by the nation's best educators, access reliable government data and find curated lists of free government sources that are theme based and reference national standards in social studies and health.
