## **Netflix This Month Returns:**

**Fundamentals of Corporate Finance** Robert Parrino,David S. Kidwell,Thomas Bates,2011-09-26 Fundamentals of Corporate Finance 2nd Edition offers an innovative integration of conceptual understanding and problem solving of intuition and decision making of the authors industry and classroom research experience with current real world examples and online practice Authors Robert Parrino David Kidwell and Thomas Bates believe that students who understand the intuition underlying the basic concepts of finance are better able to develop the critical judgments necessary to apply financial tools in real decision making situations Their text develops intuitive thinking while simultaneously helping students develop problem solving and computational skills It then shows students how to apply intuition and analytical skills to decision making while integrating it all with valuation and building shareholder value

CEO of New America A forward thinking manifesto from three Stanford professors experts who have worked at ground zero of the tech revolution for decades which reveals how big tech's obsession with optimization and efficiency has sacrificed fundamental human values and outlines steps we can take to change course renew our democracy and save ourselves In no more than the blink of an eye a naive optimism about technology's liberating potential has given way to a dystopian obsession with biased algorithms surveillance capitalism and job displacing robots Yet too few of us see any alternative to accepting the onward march of technology We have simply accepted a technological future designed for us by technologists the venture capitalists who fund them and the politicians who give them free rein It doesn't need to be this way System Error exposes the root of our current predicament how big tech's relentless focus on optimization is driving a future that reinforces discrimination erodes privacy displaces workers and pollutes the information we get This optimization mindset substitutes what companies care about for the values that we as a democratic society might choose to prioritize Well intentioned optimizers fail to measure all that is meaningful and when their creative disruptions achieve great scale they impose their values upon the rest of us Armed with an understanding of how technologists think and exercise their power three Stanford professors a philosopher working at the intersection of tech and ethics a political scientist who served under Obama and the director of the undergraduate Computer Science program at Stanford also an early Google engineer reveal how we can hold that power to account Troubled by the values that permeate the university's student body and its culture they worked together to chart a new path forward creating a popular course to transform how tomorrow's technologists approach their profession Now as the dominance of big tech becomes an explosive societal conundrum they share their provocative insights and concrete solutions to help everyone understand what is happening what is at stake and what we can do to control technology instead of letting it control us **Business 2.0** ,2003-07 *Everyday Finance* Mary Bonk,2008 This volume introduces the basic ideas of economics presenting essays The Big Picture Macroeconomics The Individual Parts
