Vivek Jain, Dr. Iris Jiyeon

Kim,2025-11-05 Is it possible to eliminate the occurrence of maritime incidents All parties engaged in maritime commerce endeavour to reduce both the probability and impact of maritime incidents acknowledging the significant ramifications such events hold for all stakeholders This book states that contingency planning differs from crisis planning and traditionally has not covered post casualty recovery within the concept of business continuity The lack of clarity around this concept

highlights a gap in industry contingency planning literature and training This two volume book introduces a new contingency planning model applies it to 22 maritime incidents and offers guidance on training hydrodynamics towage salvage maritime law and general average issues in contingency planning These chapters provide comprehensive guidance for managing maritime incidents minimising the need to consult multiple resources Each chapter includes both theoretical analyses of maritime scenarios and case study research with a dedicated section on LNG ships The content aims to assist readers in understanding effective strategies for addressing maritime incidents The book is suitable for shipboard and shore based professionals maritime lawyers loss prevention specialists surveyors general average practitioners researchers regulatory authorities classification societies and other stakeholders It is expected to become the industry's standard reference on maritime incidents

*Reeds Vol 16: Electrical Power Systems for Marine Engineers* Gordon Boyd, Fred Taylor, 2020-10-01

Within the marine and offshore industry there is a clear and growing need for increased training and education on the use of electrical power systems The number of electrical plant and appliances now in service has grown at an alarming rate in recent years as has the amount of electrical power generated and utilised on board Large passenger ships now carry as many electrical officers as marine engineers and electrical propulsion is now in common use by LNG carriers small parcel tankers oil tankers ferries offshore support the navy fleet auxiliary cable layers and cruise ships A number of shipping companies now award the Chief Electro Technical Officer the equivalent rank to the ship's master and Chief Engineer These developments have resulted in the establishment of a Foundation Degree programme for Electro Technical Officers and the current development of full degree programmes As such a targeted textbook for students on the subject is required As with all titles in the Reeds Marine Engineering Series this book will be written in clear accessible language so as to be of use to all students and particularly those for whom English isn't their first language Technical drawings and diagrams will be used throughout and each chapter will be accompanied by example examination questions
