## research methods in psychology

### UNIT ZERO

Unit Zero of the AP Psychology curriculum lays the groundwork for understanding **the discipline as a science**. It introduces students to the fundamental psychological theories, contemporary perspectives, and the diverse methodologies used in psychological research. Students will learn to apply various research methods and designs essential for data collection, analysis, and observing behavior and cognition in humans and animals. This unit emphasizes the importance of ethical guidelines and methodological rigor, ensuring the validity and reliability of research findings. Mastery of these foundational skills is crucial for success on the AP Psychology Exam and for applying psychological principles effectively and ethically in real-world scenarios.
