Resources in Education, 2000-04 *Expertise* Jessica Gerrard, Jessica Holloway, 2023-01-26 This book offers an important and timely

critique of expertise showing how it is a keyword shaped by social historical and political debates about what counts as knowledge and truth and who counts as experts Using teacher expertise as an illustrative case Jessica Gerrard and Jessica Holloway reflect on recent events including COVID 19 and the climate crisis to examine how expertise is never neutral objective or fixed They argue that getting political is not just an inevitable part of teacher expertise but a necessary basis of any claim to it Across the chapters Expertise explores how expertise is socially constructed in relation to governance uses of data and evidence understandings of ignorance and the unknown and ultimately power Using contemporary and historical examples from international contexts the authors address the political positioning of expertise and how this creates boundaries between who is an expert and who is not and what is and is not expertise Gerrard and Holloway argue that ongoing policy debates about teacher expertise cannot be resolved by neutral definitions of good teaching Rather expertise is unavoidably political in its expression
