expression and freedom of the press and then goes on to explore the general issues concerning the regulation of the internet as a specific medium. It then turns to analysing the legal issues relating to the three most important gatekeepers whose operations directly affect freedom of expression: ISPs, search engines and social media platforms. Finally, it summarises the potential future regulatory and media policy directions. The book takes a comparative legal approach focusing primarily on English and American regulations, case law and jurisprudential debates, but it also details the relevant international developments: Council of Europe, European Union as well as the jurisprudence of the European Court of Human Rights.

The purpose of this study is to assess the impact of social networking sites, i.e. Facebook, on students' academic performance. The study was carried out in Wollega University with regular undergraduate students in focus. A questionnaire was designed to assess the impact of Facebook usage on students and was administered to 384 students selected using stratified sampling technique. Variables identified are time spent on Facebook, addiction to Facebook, and academic performance. The Pearson product moment correlation coefficient was used to examine the relationship between addiction to Facebook and time spent on Facebook and students' academic performance. Furthermore, a multiple linear regression was carried out to determine the relative contribution of addiction to Facebook and time spent on Facebook to students' academic performance. An analysis of the results was carried out using the SPSS software package. And the findings of this study show that time spent on Facebook and addiction to it negatively and significantly affects students' academic performance. *The National Culinary Review*, 2010 **Minnesota Law Review**, 2016 **Summary of Facebook Marketing - [Review Keypoints and**
