**Good Meal Prep Ideas For Beginners and Dummies** Barbara Dawson, 2020-08-18 Meal prepping is making a meal or recipe then portioning it out to grab and go meals for later If you've ever kept your leftovers from dinner to take with you for lunch then next time you've made a mini meal prepped Good Meal Prepping though meal prepping refers to making 3-7 days worth of food at a time Think of it like making your lunches for the week all at once instead of making your lunch every day You can use this same technique for breakfast lunch dinner and snacks Meal prepping isn't a waste and it's not too hard to do outside your home whether that's a plan or a budget When making your meal plan for the week the question is how long will you be able to eat the same meals without having to do it every day Meal prepping is not for everyone It is good for people who value convenience and efficiency more than variety With meal prepping you can eat the same thing for a few days in a row so you don't have to eat leftovers or get bored with food Meal prepping is not for everyone If you're not maximizing your time your budget is more valuable than eating something different every day Meal prepping is not for everyone generally not seen as a meal for the month or maybe one other person doing a whole meal Meal prepping for a whole family would be quite difficult but if you're not used to it would be a challenge if it's stored in the refrigerator for a long time in a slow cooker In addition to the way food is packed in the individual nuances of your refrigerator can impact the quality of your refrigerated meal So the level of acceptability of the texture and flavor will be subjective to the eater Always begin with the refrigerator guidelines that the FDA and then consult them against your own preferences In general I don't like to eat more than a few days worth of a meal but I find that that's the best food you'll be able to eat
