Handbook of Educational Psychology and Students with Special Needs Andrew J. Martin, Rayne A. Sperling, Kristie J. Newton, 2020-02-18 Handbook of Educational Psychology and Students with Special Needs provides educational and psychological researchers, practitioners, policy makers, and graduate students with critical expertise on the factors and processes relevant to learning for students with special needs. This includes students with attention deficit hyperactivity disorder, other executive function difficulties, behavior and emotional disorders, autism spectrum disorder, intellectual disabilities, learning disabilities, dyslexia, language and communication difficulties, physical and sensory disabilities, and more. With the bulk of educational psychology focused on mainstream or typically developing learners, relatively little educational psychology theory, research, measurement, or practice has attended to students with special needs. As clearly demonstrated in this book, the factors and processes studied within educational psychology—motivation and engagement, cognition, and neuroscience, social-emotional development, instruction, home and school environments, and more—are vital to all learners, especially those at risk or disabled. Integrating guidance from the DSM-5 by the American Psychiatric Association and the International Classification of Diseases ICD-10 by the World Health Organization, this book synthesizes and builds on existing interdisciplinary research to establish a comprehensive case for effective psycho-educational theory, research, and practice that address learners with special needs. Twenty-seven chapters by experts in the field are structured into three parts on diverse special needs categories: perspectives from major educational psychology theories and constructs relevant to special needs; learning, development, and knowledge building. **Readability and Top-level Structure** Charlene Clements

Jonathan E. Peelle, Arthur Wingfield, 2015-06-03 Efficient auditory processing requires the rapid integration of transient sensory inputs This is exemplified in human speech perception in which long stretches of a complex acoustic signal are typically processed accurately and essentially in real time Spoken language thus presents listeners auditory systems with a considerable challenge even when acoustic input is clear However auditory processing ability is frequently compromised due to congenital or acquired hearing loss or altered through background noise or assistive devices such as cochlear implants How does loss of sensory fidelity impact neural processing efficiency and health How does this ultimately influence behavior This Research Topic explores the neural consequences of hearing loss including basic processing carried out in the auditory periphery computations in subcortical nuclei and primary auditory cortex and higher level cognitive processes such as those involved in human speech perception By pulling together data from a variety of disciplines and perspectives we gain a more complete picture of the acute and chronic consequences of hearing loss for neural functioning Daily Reading Comprehension Evan-Moor Educational Publishers, 2010 Common Core Top Pick for Reading Literature and Informational Text Key Ideas and Details Craft and Structure Range of Reading and Level of Text Complexity View all Common Core Top Picks for Reading Literature and Informational Text Daily instruction on the reading strategies and comprehension skills your students need to improve reading comprehension and raise test scores Engage your students in reading thinking about and responding to a variety of passages and texts Daily Reading Comprehension Grade 6 presents your students with the reading strategies and comprehension skills they need to become strong and successful readers 30 weeks of instruction cover the following reading skills and strategies Skills Theme Evaluating Evidence Character Setting Main Idea Details Visual Information Author s Purpose Make Predictions Draw Conclusions Cause Effect Compare Contrast Nonfiction Text Features Sequence Strategies Monitor Comprehension Make Connections Visualization Organization Determine Important Information Ask Questions **The Bibliographic Index**, 2005 Language Learning Disabilities in School-age Children Geraldine P.
