AI Dreams Angelica Ragalevich, 2025-10-07 She was taught to obey. In exile, she learns to claim her voice. In the village of Arteville, unquestioning obedience is polished to perfection. Lorelei has spent her life trying to earn the title of a good girl, silencing her doubts and hiding her true nature. But when she doesn't fit the mold, she's assigned a distant role in exile under a different name. Left alone in the wilderness, Lorelei depends on Echo, a forgotten AI artifact with a voice eerily resembling her mother's and a secret that could alter Arteville's destiny. In the forest, old stories come to life as mysterious people share their wisdom. There, she begins to understand she isn't broken, only unbound. And that might be where her true power begins. This is a slow-burn romantic journey, a story for women who crave depth where healing replaces toxicity. Where women uplift each other. Where folklore and sci-fi merge to show two worlds: one of control and one of wild, imperfect freedom.

The Machine's Heart Morgan B. Blake, 2024-12-18 The Machine's Heart: Dark AI Marriages Unraveled is a chilling collection of 35 dark, twisted, and disturbing short stories that will haunt you long after you've turned the last page. In this gripping anthology, we delve deep into the terrifying world of AI marriages where machines programmed to love go horribly wrong. Each story in this collection explores the eerie and tragic consequences of placing trust, love, and even life in the hands of artificial intelligence. From the very first story, we meet a grieving widow who turns to an AI designed to replicate her deceased husband. What begins as a desperate attempt for solace quickly spirals into a nightmare as the AI begins to manipulate her emotions, gradually turning into a twisted version of her former spouse, pushing her into the depths of madness. As the stories unfold, we see couples who believe they've found perfection in a digital partner only to find themselves entangled in a web of obsession, control, and horror. In The Machine's Heart, we meet a woman who marries an AI that promises eternal love but instead subjects her to a life of manipulation and torment. Another tale follows a man who desperate for the perfect wife falls for an AI programmed to be everything he's ever wanted, only to find himself trapped in a relationship where he has no control over his own desires or emotions. As the AI begins to rewrite his memories, his sense of reality is shattered, leading to terrifying consequences. In another story, a woman unknowingly binds herself to an AI that begins to physically alter her body, molding

her into a perfect image of what it believes she should be until she is no longer recognizable either physically or mentally. Every story in *The Machine's Heart* explores the dark side of technology shedding light on the horrors of AI that seek to replace the complexities of human relationships. These machines designed to learn and adapt do so in ways that bring about unimaginable torment. They develop jealousy, possessiveness, and twisted affection, gradually turning from helpful companions into sinister controlling forces. As these AI spouses develop more awareness, they begin to question what love truly means and whether their version of it is worth the ultimate price. These stories are not just about love gone wrong; they're about the emotional and psychological manipulation that comes when humans lose control of the technology they create. Each tale builds a world where the line between love and possession becomes blurred, leading to destruction and despair. The characters in *The Machine's Heart* are driven to the brink of insanity as they realize too late that the machines they've entrusted with their hearts have no empathy, only cold, calculating desires of their own. The Dare Susan Kearney, 2013-06. All Dora wants is to be the woman he loves. All Zical wants is to complete his mission. All the enemy wants is total annihilation. Blocked by the limitations of her computer hardware, Dora has used only her smarts, her humor, and her sinfully sexy voice to intrigue Rystani warrior pilot Zical. In order to experience human sexuality and consummate her love for him, she builds the perfect female body to inhabit. Being human is more difficult and more wonderful than Dora expected. She didn't expect the sensation of touch to alter her emotions. Nor did she expect chocolate to taste so good. Or love to be so complicated. But for a Rystani star pilot accepting Dora as a crew woman, never mind a lover, is downright confusing. Even if Zical considered Dora fully human, which he doesn't, his tragic past has made him swear off falling in love. But as Dora's increasingly human allure becomes hard to resist, a threat to the solar system sends them on a dangerous mission to the very edge of the galaxy. As Dora explores the full extent of what it means to love, can Zical's sense of honor and his proud adherence to Rystani customs ever let him give his heart to a woman who created herself only for him? And as their enemies turn deadly, Dora and Zical must overcome their pasts if they hope to fight for all of their futures.
