Student Loan Repayment Near Me:

House of Commons - Committee of Public Accounts: Student Loan Repayments - HC 886 Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2014-02-14 There is at present around 46 billion of outstanding student loans on the Government's books and this figure is set to rise dramatically to 200 billion by 2042 in 2013 prices. By 2042 there will be an estimated 6.5 million borrowers of student loans. At the same time estimates for the amount of loans that will not be repaid are also rising and the Government assumes that 35-40% of outstanding loans will never be repaid. That is some 16 billion to 18 billion on the current debt of 46 billion and 70 billion to 80 billion on the estimated value of student loans by 2042. The Department for Business, Innovation and Skills, the Department is not doing enough to secure value for money from its collection arrangements. The Department is unable to accurately forecast student loan repayments and does not have a sufficient understanding of the likely future cost of non-repayment to the taxpayer. The Student Loans Company is not doing enough to ensure that it identifies and collects all the repayments due given the substantial size of the financial assets involved and will need to demonstrate value for money from the proposed sale of the student loans book.
