[Asia-Europe Industrial Connectivity in Times of Crisis](#) Lucía Morales, Sam Dzever, Robert Taylor, 2023-02-07

The main objective of this book is to offer an overview and a critical assessment of current connectivity issues in Asia and Europe seen from an industrial perspective. Critical insights into the contemporary debate on connectivity during times of crisis, which has led to significant economic and social disruptions, are offered throughout the book. European and Asian countries seek to bounce forward and not bounce back as they navigate the complex economic recovery process. Innovation and investment emerge as critical players to help an economic recovery that shifts towards a more resilient and environmentally friendly approach to ensure that the world economies stay connected. The global health crisis has revealed that more than ever before, ubiquitous connectivity underpinned by pioneering innovation is a must. As such, governments worldwide need to ensure that businesses and societies emerge stronger and more resilient from existing and emerging crises by laying solid foundations that help to circumnavigate future disruptions of a global magnitude.

[Distribution Evolution](#) Elliott W. Nikdel, 2025-09-18 Distribution Evolution On Demand and the Relocation of Specialized Film looks beyond the rhetoric and beneath the gleaming surfaces of on-demand to reveal a more complex picture than the narrative of disruption. Welcome to the age of on-demand. This is a world replete with choice, a world where consumers dictate the terms of their viewing experience, choosing what to watch, when, and how. A world

devoid of monopoly where the niche and undiscovered stand shoulder to shoulder with the rich and the powerful These stories of disruption have come to shape the popular perception of on demand but does this vision paint an accurate portrait of today s streaming landscape Distribution Evolution assesses whether digital distribution is the democratising force we were promised Does on demand disrupt and displace the monopolistic practices and patterns that have long curtailed the wider reach of specialised film Or does this vision of disruption resemble little more than a fantasy crafted by gifted storytellers and cunning marketeers To answer these questions Distribution Evolution looks to the past to form a picture of the present Whether it be the emergence of new practices or the persistence of old ones the book reveals how a complex interplay between past and present is shaping the digital future The resulting work provides a new framework through which to understand the on demand era as a process of relocation not transformation evolution not revolution
