National Commission on Student Financial Assistance, 1983

House of Commons - Committee of Public Accounts: Student Loan Repayments - HC 886 Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2014-02-14 There is at present around 46 billion of outstanding student loans on the Government s books and this figure is set to rise dramatically to 200 billion by 2042 in 2013 prices By 2042 there will be an estimated 6.5 million borrowers of student loans At the same time estimates for the amount

of loans that will not be repaid are also rising and the Government assumes that 35 40% of outstanding loans will never be repaid That is some 16 billion to 18 billion on the current debt of 46 billion and 70 billion to 80 billion on the estimated value of student loans by 2042 The Department for Business Innovation Skills the Department is not doing enough to secure value for money from its collection arrangements The Department is unable to accurately forecast student loan repayments and does not have a sufficient understanding of the likely future cost of non repayment to the taxpayer The Student Loans Company is not doing enough to ensure that it identifies and collects all the repayments due given the substantial size of the financial assets involved and will need to demonstrate value for money from the proposed sale of the student loans book

Current Student Aid and Other Related Regulations Through ... United States. Department of Education. Student Financial Assistance Programs, **National Audit Office - Department for Business, Innovation and Skills: Student Loan Repayments - HC 818** Great Britain: National Audit Office,2013-11-28 Until the Department for Business Innovation and Skills BIS has a robust strategy for maximizing the collection performance of student loans and improves its information on borrowers it will not be well placed to secure value for money BIS forecasts that the total value of outstanding student loans will increase from 46 billion in 2013 to approximately 200 billion by 2042 in 2013 prices The number of borrowers due to repay is projected to increase from 3 million in 2012 13 to 6 5 million by 2042 The loan book is therefore becoming a substantial public asset BIS and its collection partners HM Revenue Customs and the Student Loans Company SLC work together in a joined up way In 2012 13 they collected 1 4 billion in student loan repayments at a cost of 27m BIS needs to

make better use of data to support its collection strategy and improve its understanding of where it could invest to maximise the collection value of the loan book In designing how student loans would work BIS anticipated that a proportion of the loans would not be repaid However BIS has not set an annual target for the amount to be collected because repayments are affected by graduate earnings and economic factors outside its direct control Annual repayment forecasts are consistently higher than amounts collected While many borrowers may not be in employment BIS and the SLC have carried out little analysis to establish how many may be working overseas or the level of repayments that may be missed *Student Loans and the Dynamics of Debt* Brad Hershbein, Kevin M. Hollenbeck, 2015-02-23 The papers included in this volume represent the most current research and knowledge available about student loans and repayment It serves as a valuable reference for researchers and policymakers who seek a deeper understanding of how why and which students borrow for their postsecondary education how this borrowing may affect later decisions and what measures can help borrowers repay their loans successfully *Statement of Disbursements of the House* United States. Legislative Calendar United States. Congress. House. Committee on Education and the Workforce, 2006 *Loan Forgiveness and Loan Repayment Programs* Virgil Davidson, 2019-04 Student loan forgiveness and loan repayment programs provide borrowers a means of having all or part of their student loan debt forgiven or repaid in exchange for work or service in specific fields or professions or following a prolonged period during which their student loan debt burden is high relative to their income In both loan forgiveness and loan repayment programs borrowers typically qualify for benefits by working or serving in certain capacities for a specified period or by satisfying other program requirements over an extended term Upon qualifying for benefits some or all of a borrowers student loan debt is forgiven or paid on his or her behalf Some of these

programs are intended to support goals such as providing a financial incentive to encourage individuals to enter into and or remain in a particular profession or public service One such federal program that has received considerable attention in recent years is the Public Service Loan Forgiveness PSLF program The PSLF program forgives borrowers federal student loans after they make at least 10 years of qualifying payments while working for certain public service employers
