2. Learning Goal(s): Based on the CA State Standard(s) you have identified above, what will students have mastered in terms of knowledge and/or skill as a result of this lesson? (TPE 2.2, 2.6, 3.2) (Sample sentence frames: "By the end of this lesson, my students will have mastered the ability to..." or "By the end of this lesson, my students will be able to explain...") <ul style="list-style-type: none">By the end of this lesson, students will understand that when we count in ascending order, we are adding one over and over to our previous quantity.

I will draw an amount, and I will have students draw an amount that is one bigger. Students will hold up their whiteboards after each question so I can see who is understanding. Formative Assessment 2: Students will complete our ten-frame worksheet by filling in the top ten frame with a number given to them, then completing the bottom frame by increasing the amount by one. They will check with a partner who has filled in different numbers and evaluate if they did it correctly.	
Learning Objective	Total /3
Student filled in their first ten-frame with the correct number given to their table.	/1
Student filled in their second ten-frame by increasing the amount by one.	/1
