In the Pursuit of Winning Masood Zangeneh, Alex Blaszczynski, Nigel Turner, 2007-11-25 Gambling is an underrecognized problem from both a clinical and a public health point of view It is not uncommon for an adolescent or adult to participate in one form of gambling or another on a regular basis be it the lottery card playing for money sports wagering or gambling on electronic gaming devices Nor is it uncommon for such participation to reach excessive or destructive proportions with negative effects on the individual's psychological social economic and family life The results of the National Research Council's 2000 review of empirical studies suggest that 85% of adolescents report having gambled during their lifetime with 73% of adolescents reporting having gambled in the past year Despite gains in knowledge concerning the correlates and risk factors associated with severe gambling problems among youth during the past ten years a general lack of public and parental awareness exists This raises serious mental health and public policy concerns Written from an international perspective this book covers gambling research and interventions in the following categories role of helpline services a Jungian transpersonal approach to treatment cognitive therapy for problem gambling pharmacological interventions for problem gambling desensitization biofeedback as treatment for problem gambling binge gambling pathological gambling past and contemporary aboriginal peoples experiences with gambling problem gambling counselor certification measurement of outcomes in problem gambling treatment overview of teen gambling related issues from leading researchers

Counseling Problem Gamblers Joseph W. Ciarrocchi, 2001-10-05 Over the past decade legal wagering has expanded rapidly in North America In 1998 alone people lost 50 billion dollars in legal betting and it is estimated that illegal wagering is twice that amount A recent government report based on the broadest population survey concludes that the lifetime and pathological gamblers in the U S range between 4 and 10 million persons and is growing If we include the

families affected by problem gambling then the potential impact is indeed prodigious Virtually no community in the U S and Canada is left untouched by entertainment or problem gambling Treating problem gambling has evolved from a small group of practitioners in the 1980 s working in specialty inpatient units into an international enterprise that affects the caseload of many mental health professionals Owing to its quiet origins problem gambling treatment strategies are not well known throughout the clinical community Consequently the average clinician is him herself learning as they go This approach does not benefit either client or therapist As the book s first chapter makes clear problem gambling differs significantly from substance abuse its nearest clinical relative Not attending to these differences leads to poor results and clinical failure This book is the one essential tool needed by clinicians treating or likely to treat problem gambling Written by a clinician with wide experience it is intended for the general clinician treating or likely to treat problem gambling desiring a comprehensive yet user friendly guide Assessment and treatment of problem gambling and those affected by it is discussed Includes diagnostic instruments developed by the author An integrative approach is taken with a special focus on cultural concerns and clinical applications for women and minorities Integration of spirituality in treatment is covered
