**Analysis of the ESPN Fantasy Football Auto-pick Selection Tool and Alternative Suggestion** Justin Malley, 2022 In this paper we will consider fantasy football an extremely popular online game that is based on the performances of players from the National Football League NFL Per the Fantasy Sports and Gambling Association over 59 million people played fantasy sports in 2017 in the United States and Canada 78% of whom a total of 46.5 million took part in fantasy football Most fantasy football participants host their leagues on three major media websites ESPN Yahoo and NFL.com Each website has a team of analysts that focuses on reporting NFL news providing preseason player rankings specifying fantasy football draft opinions and calculating weekly fantasy football players points totals among a host of other duties Despite the mass popularity of fantasy football the tools that ESPN Yahoo and NFL.com provide users to assist in player selection during the

fantasy draft remain elementary This paper sets out to analyze the default drafting aid provided by ESPN one of the most popular platforms for fantasy football and provide an alternative selection method that can out perform ESPN The alternative selection tool will consider ESPN s preliminary draft rankings each player s position the remaining available players and current roster to generate teams with advantageous roster compositions The goal of the alternative strategy is to identify weaknesses in the ESPN provided draft assistant while simultaneously assisting fantasy football participants by bolstering their draft selection choices This paper primarily considers the opportunity costs that arise at each draft selection making it unique insofar as previous literature analyzing fantasy football drafting employs alternative player projections and or highly computational methods to identify strong draft picks This paper s provided alternative strategy gives managers more balanced rosters with more effective distributions of valuable players at the 4 most important positions suggesting that ESPN s auto pick selection tool must be revised to improve the competitiveness of fantasy football drafts *Fantasy Football*
