Making Memes In 3 Simple Steps is quite frankly nothing but a short book showing aspiring professional funny meme creators how to make money on fiverr.com. Most authors overpromise and under deliver when they write their book introduction. That is not what I am about to do. In this introduction I will tell you how to earn your first 100 making memes in 3 simple steps. My advice will be practical and straight to the point. Let's Be Honest Book introductions are basically a form of marketing to get people to buy the book. In this book introduction I am going to be very transparent with you. I'll be so transparent with you that you may lose interest in this book and choose not to buy it and that is fine with me. Did I write this introduction to market it to you and to get book sales? The answer is yes but I do not want just anyone to buy this book. I want this book to be bought by people who are serious about earning money with memes. Why I Wrote This Book's Introduction: I wrote this book's introduction to get sales and weed out the people who would be wasting their time if they bought this book. I am not like all of the other writers out there. I am not desperate for your money. This book is not for everybody and I knew this before I even began writing it. This is not the book for you if you do not already know how to make memes. This book is for people who already have experience in making memes. This book is for people who would like to know how to go about earning money with their already established meme creating abilities. This book does not teach you how to make a meme. This book doesn't take more than a week to read and it isn't expensive at all. This Book Is Cheap: For just the low price of 2.99 you can learn how to earn your first 100 making memes. According to CollegeBoard.com the national average for college textbooks is 1,137 per year. You purchasing this book will be an inexpensive investment in your future and if you practice the 3 SIMPLE steps in this book it will pay for itself. 3 Reasons Why This Book Is So Cheap: The first reason why this book is so cheap is because most people who would be interested in a book like this are millennials. Millennials are the poorest generation so far. That's why I made this book 2.99 and not 14.99 when I self published it. The second reason this book is so cheap is because it is SUPER short. Usually when you hear advice that is straight to the point it is short. The truth is usually short straight to the point and simple just like this book. The third reason why this book is so cheap is because it didn't take a lot of money to write and self publish this book in the first place. I don't owe a book publishing company money so I'm not about to charge you over 10 for a book like this. What You Are Being Sold: I'm not selling you the perfect book because the perfect book doesn't exist no matter how much work I put into it or hire someone else to put into it. I'm selling you a book with practical easy to understand steps on how to earn your first 100 making memes. QUICK DISCLAIMER: Before I get into the 3 steps that will be taught to you I want to let you know a few things. This is not a scam. No the steps will not be easy but they are not hard either. The 3 steps are SIMPLE. If you aren't satisfied you can get your money back. Usually when people do research on how to create an extra stream of income they come across things like affiliate marketing and making YouTube videos. This book is most likely the first book to ever teach people how to turn their passion for memes into an additional stream of income. The 3 Simple Steps You will get to learn from the mistakes I made along the way to earning my first 100.

[Engaging content on Instagram. Best filter choice for the increase of photo views and likes of sport and leisure interested users](#)

Ilona Maties,2018-06-18 Bachelor Thesis from the year 2016 in the subject Communications Public Relations Advertising Marketing Social Media grade 7 6 Stenden University course Bachelor of Business Administration Bachelor of Art language English abstract The social media world has increased fast and people become overwhelmed with information Since images play an important role in the social media world organizations have the opportunity to create a profile at the social media network Instagram to post filtered and non filtered photos to engage its users to view like and comment those Photo filters

that increase warmth exposure and contrast get more likes and comments because they elicit feelings of arousal and excitement. This theory can be attributed to the filters' colors since red, orange, and yellow lead to states of arousal and excitement. Next to that, sport fans enjoy images in black, white, and sepia. The sport company S is a client that has wished an Instagram profile from the company 12s. For that reason, the management did send many sport-related photos to the media firm which they can post at their profile. However, the employees who are responsible for the Instagram profile are not sure if they should keep the images original or edit them with filters. If they edit photos, they can choose between filters, which makes the choice harder since they do not know which filter viewers like. For solving that problem, a research was needed to give recommendations to the organization 12s for the best filter choice by analyzing appealing colors and filters of lively Instagram users that are interested in sport and leisure via an experiment. For the experiment, two groups were randomly chosen which were as similar as possible. All participants had to be interested in sport and leisure. One group had to answer questions about original photos, and the second group about edited photos. 16 images were posted in original and edited at the Instagram profile Bachelor_Workout to see which photos receive more likes. The outcome shows that participants prefer photos edited. Approximately, edited photos receive min 20 per cent more views and likes compared to original photos. Furthermore, participants like warm colors filters such as Hefe and Valencia and the colourful filter Clarendon. Especially men do like the black and white filter Moon compared to women who prefer the filter X_Pro_II. To engage Instagram users who are interested in sport and leisure, 12s should edit photos with warm colors to reach the target group of the sport company S. If they like to reach more men, they can use the black and white filter Moon, and if they concentrate more on women with a photo, they should use the filter Rise. **Good Things Come and Go** Josie Shapiro, 2025-11-04. The stunning second novel from the bestselling author of Everything Is Beautiful and Everything Hurts. Poignant, redemptive, electrifying. Catherine Chidgey. A novel about friendship and betrayal, ambition and grief. Good Things Come and Go is also a study of homecoming and heartbreak and an ode to taking risks no matter the consequences. After the death of their young daughter Penny Whittaker and Adam Riggs are struggling. Penny's lifelong dream of becoming a successful artist has stalled and Riggs' battling an addiction to prescription painkillers is coming to grips with the end of his glittering professional skateboarding career. When Penny is unexpectedly offered a chance to exhibit her work at an Auckland gallery, she accepts despite her reservations. At the same time, Jamie Flannery suddenly finds himself out of work and out of options. To recuperate, he moves to his uncle's abandoned bach on the Coromandel, and when his childhood friend Riggs calls out of the blue, the three friends reunite. At first, being together feels just like old times. But secrets from their shared past threaten their newfound peace, forcing them to reckon with their history and themselves. A tender, tough story of loss and renewal, love and rage, the promise of youth and the aching regrets of middle age, a powerful reminder that inside every one of us is a dream worth chasing no matter how much time or talent has been laid to waste. integrated into people's daily lives worldwide over the past years. The percentage of the world's population with access to the internet has doubled from 32% in 2011 to 63% in 2021. 90% of people from developed countries access the internet in 2021. At the same time, the number of social network users is increasing. These networks have the purpose of connecting with friends. In 2022, 5 billion people have access to the internet worldwide and 4.7 billion people use social media. Ultimately, 93% of those with internet access own at least one SM account that is more than half the population worldwide. Through time, companies found new marketing strategies which reached active people on SM. These platforms are necessary to reach Generation Z people born in the late 1990s. They are different and cannot be reached in the same way as they watch Netflix instead of TV or listen to Spotify instead of the radio. For example, Influencer marketing became a 10 billion industry in 2020. Influencers share their lives on SM networks. Due to their high reach, they receive offers from companies for cooperation. Influencers' followers admire and trust their recommendations due to their personal and authentic representation. While advertising products, influencers show how to use them, where to buy them, and give their opinion. For higher sales, influencers often receive promo codes for a discount or free products for each order. *Bridget Wilder #3: Live Free, Spy Hard*
