[Smart Home Technologies and Services for Geriatric Rehabilitation](#) Mohamed-Amine Choukou, Shabbir Syed-Abdul, 2021-10-18 Smart Home Technologies and Services for Geriatric Rehabilitation provides a

toolbox for healthcare stakeholders involved in decision making for the design development and implementation of smart home solutions. The book provides an in depth look at the field of smart homes with readers from both research and practice in mind. It addresses the roles and contributions of smart home technologies and services in supporting geriatric rehabilitation and discusses the challenges of current practice and future innovation especially with wireless technology and 5G advancements. This reference offers advice on how to implement solutions in the home and how to framework the modalities of modifying and measuring responses to rehabilitation interventions in geriatric populations. Acceptability, usability and adherence are all considered. Content coverage includes how to navigate policies, regulations, standards and how to build business models. The book's editorial team is multidisciplinary, multisectoral and from very different regions of the world thus ensuring a comprehensive scope and global approach. Offers an overview on the state of the art advanced technologies used in home healthcare to improve patient safety and care. Explores the challenges of current practices and discusses new perspectives for future innovations in geriatric rehabilitation services. Combines the technical aspects of computer science and technology design with the practical aspects of care giving.
