Writing an Academic Paper in English Adrian

Wallwork, 2022-06-25 This book is for university students with at least a mid intermediate level of English It can be used as part of an English for Academic Purposes EAP course either alone or with the companion volume Giving an Academic Presentation in English The chapters are independent so that EAP teachers and students can choose those sections that best fit their needs This means that a course can range from a minimum of 20 hours up to 60 hours or more There is an introductory chapter that includes what role academics play in today s world where success is not just measured in terms of paper output but also involvement in interdisciplinary projects and supporting society at large Each chapter covers a particular section of a paper Abstract Introduction Methods etc and begins with a discussion exercise on what the exact purpose of each section is This purpose is also highlighted by comparisons with non academic situations where similar skills are required There are many examples and templates none of which are lengthy or complex but which are designed to highlight key points Students learn what style to adopt we vs impersonal the correct tenses to use in each section typical mistakes and useful phrases The course is highly practical and is also designed to be fun to use Other books in the series Giving an Academic Presentation in English Essential English Grammar and Communication Strategies Adrian Wallwork is the author of more than 40 ELT and EAP textbooks He has trained several thousand PhD students and researchers from around 50 countries to write research papers and give presentations He is also the co founder of e4ac com an editing agency for non native English speaking researchers

Using Microsoft Word 2013 for Academic Papers Michael

Morrison, 2013-05-17 Microsoft Word is a popular word processing program It is capable of doing many things and because of that it is complex sometimes difficult to use and sometimes it does things we did not ask it to do However after we learn how to control Word it will make the process of preparing papers much easier We will find that it can do things we want it to do we just need to learn how to use it This tutorial is designed for a variety of users For beginnings some of what we say will be too complicated For more experienced users some of what we say will be too simplistic So feel free to skip the parts you do not want But if you think something is too complicated you might want to skim it anyway just so that you ll know that such things can be done if you ever need them Store it away for a later day Our focus in this document is for academic papers Other users will probably find this information helpful too but our focus is on academic papers Some of the default settings in Word are designed for business use and academic papers require different settings So we need to learn how to change the settings in Word We examine each of the menu ribbons and features skipping those that are not needed for academic papers We spend the most space for File Home Insert Page Layout References Review and View Includes more than 100 screenshots to illustrate how to do it

Using Microsoft Word to Write Research Papers in APA Style Larry Pace, 2012-07-04 This is a must have book for students researchers and faculty members who need to write papers in APA style and want to learn how to use Word more effectively

Doing Your Dissertation with Microsoft Word Jacques Raubenheimer, 2012 This book contains over 500 pages of help crammed with close on 1000 illustrative images in 19 different chapters on everything you need to know to create thesis formatting in Microsoft Word you can be proud of Unfortunately the content remains your responsibility The book will also be of use to any person needing to create large documents in Microsoft Word and is thus not limited to the academic context Topics include Learning to work faster in the Word environment Correct use of fonts and special characters Automated text

input Working with templates Using styles for automated and consistent formatting Proper page setup Heading numbering Table figure numbering Footnotes and endnotes Indexes Automated tables of content Search and replace Document navigation Managing large and or multiple documents Citations and References Using Word s reviewing tools Tables Charts Equations Drawings and picture editing in Word Printing your dissertation Learn how to Apply different page numbering styles for different parts of the document Break between pages at the right places Automatically apply consistent heading numbering Format your text consistently and professionally Create consistent formatting across multiple documents Create neat and consistently formatted tables and charts Number tables figures etc automatically Create cross references to tables and figures that keep track of the numbering of tables or figures Handle your reference citations automatically including the creation of a reference list or Bibliography Create a table of contents automatically Automatically add often repeated text elements Automatically format text elements e g headings Manage your foot and endnotes properly Find your working place in the large document with the maximum speed and ease Create an index Combine multiple documents into one document And much much more Accompanying sample files and tools Microsoft Word AddIn can be downloaded from the author s website From the book cover Time is one of our most precious commodities especially to a student completing a Master s or PhD and having to type their own thesis or dissertation as most 21st century students now do What would you do with an extra month to work on your dissertation If you had to assign a financial value to a month what would that be That is the bold claim of this book that typical students with a standard knowledge of Microsoft Word completing a full PhD dissertation who know and use the information provided in this book might be able to submit their dissertation approximately a month earlier or have an extra month s worth of time to focus on their research work This claim is made on the basis of the author s extensive experience in assisting students with problems encountered in the typing of their dissertations and teaching these principles to postgraduate students in a focused Microsoft Word training course But it gets better The techniques presented in this book do not save time by taking shortcuts that impinge on the quality of the final product In fact the focus of these techniques is how to improve the quality of the submitted dissertation by avoiding the mistakes students commonly make as a result of their lack of knowledge about the features offered by Microsoft Word In other words better quality work is obtained by employing techniques that simultaneously allow students to work faster So what will you do with your month
