guidelines and components the goal of this book is to teach the skills necessary to develop Android based applications using the Kotlin programming language Beginning with the basics this book provides an outline of the steps necessary to set up an Android development and testing environment followed by an introduction to programming in Kotlin including data types flow control functions lambdas coroutines and object oriented programming An overview of Android Studio is included covering areas such as tool windows the code editor and the Layout Editor tool An introduction to the architecture of Android is followed by an in depth look at the design of Android applications and user interfaces using the Android Studio environment Chapters are also included covering the Android Architecture Components including view models lifecycle management Room databases app navigation live data and data binding More advanced topics such as intents are also covered as are touch screen handling gesture recognition and the playback and recording of audio This edition of the book also covers printing transitions cloud based file storage and foldable device support The concepts of material design are also covered in detail including the use of floating action buttons Snackbars tabbed interfaces card views navigation drawers and collapsing toolbars In addition to covering general Android development techniques the book also includes Google Play specific topics such as implementing maps using the Google Maps Android API and submitting apps to the Google Play Developer Console Other key features of Android Studio 4.0 and the Android SDK are also covered in detail including the Layout Editor the ConstraintLayout and ConstraintSet classes MotionLayout animation constraint chains and barriers view binding direct reply notifications and multi window support Chapters also cover advanced features of Android Studio such as App Links Dynamic Feature Modules the Android Studio Profiler and Gradle build configuration Assuming you already have some programming experience are ready to download Android Studio and the Android SDK have access to a Windows Mac or Linux system and ideas for some apps to develop you are ready to get started

### **Google Maps SEO**

Matthew Gumke, 2019-09 If you're not first you're last Grant Cardone The best place to hide a dead body is on the 2nd page of Google SEO Community In this book you'll learn how to rank your business first on Google Maps The author is Matthew Gumke Matthew Gumke is a 24 year old Entrepreneur and Philanthropist who created his first 6 figure online business in 2017 Matthew has built a personal brand of over 100 000 Facebook followers and over 50 000 Instagram followers along with being featured in major publications for his businesses for his expertise in SEO Learning SEO led Matthew into many different industries along with creating his own books and programs to teach people how he's been able to monetise Google Search Engine to create multiple income streams Matthew's notable mentors and business partners include Tony Robbins Naveen Jain Forbes Riley Tai Lopez and Ekim Kaya Being 1st on Google maps is crucially important To rank you'll need to learn Google Maps SEO When searching for a local business many consumers search through maps If you're not 1st on Google maps you're losing Money lots of money Every single day a potential long term customer is going to your competitor Unless the customer has a bad experience it's likely you won't have them as a customer the rest of their life Being 1st on

Google maps isn't just costing you money on a day to day basis it's negatively impacting every day the rest of your life Impact You love your business your business helps people You're doing your customers a disservice when they search for a local business and go to a competitor This effects the amount of impact you can leave in the world Respect If you're not 1st on Google you'll lose respect in the eyes of many of your customers They won't see you as the market leader They'll try to negotiate discounts and haggle you for every penny It's not just your customers you'll lose respect in the eyes of many business owners They won't think you're serious about your business As a result you'll lose referrals and other opportunities Freedom The difference between freedom for many business owners is a 1st place Google ranking When you're first on Google you don't need to prospect for new customers By dominating your industry you can easily create time freedom It's not the best business owner that gets freedom it's the business owner that's first on Google I could list more reasons why your business needs to be 1st on Google maps but to be honest I don't want to disrespect your intelligence If you didn't know you need to be 1st on Google maps you wouldn't be reading this In this book I've laid out 8 easy to follow steps An idiot could do this SEO doesn't need to be difficult It's really easy once you know everything Anyone that tells you it's really difficult and you can't do it yourself is trying to sell you their services Someone with no computer experience could follow these 8 steps and rank first on Google maps What are you waiting for Read the book today and ROCKET your business to the top

**Android Studio Giraffe Essentials - Java Edition** Neil Smyth, 2023-08-08 Fully updated for Android Studio Giraffe and the new UI this book aims to teach you how to develop Android based applications using the Java programming language This book begins with the basics and outlines how to set up an Android development and testing environment followed by an overview of areas such as tool windows the code editor and the Layout Editor tool An introduction to the architecture of Android is followed by an in depth look at the design of Android applications and user interfaces using the Android Studio environment Chapters also cover the Android Architecture Components including view models lifecycle management Room database access the Database Inspector app navigation live data and data binding More advanced topics such as intents are also covered as are touch screen handling gesture recognition and the recording and playback of audio This book edition also covers printing transitions and foldable device support The concepts of material design are also covered in detail including the use of floating action buttons Snackbars tabbed interfaces card views navigation drawers and collapsing toolbars Other key features of Android Studio and Android are also covered in detail including the Layout Editor the ConstraintLayout and ConstraintSet classes MotionLayout Editor view binding constraint chains barriers and direct reply notifications Chapters also cover advanced features of Android Studio such as App Links Gradle build configuration in app billing and submitting apps to the Google Play Developer Console Assuming you already have some Java programming experience are ready to download Android Studio and the Android SDK have access to a Windows Mac or Linux system and have ideas for some apps to develop you are ready to get started
